50 CENTS PER MONTH

FIVE CENT BREAD
INDICATED AS
WILSON SETS
WHEAT PRICE

Experts Claim Flour Will
Drop As Result of
New Ruling

FARMERS SATISFIED
WITH MARK, BELIEF

Expect Margin of Profit Fixed
For Millers and Bakers
Soon

WASHINGTON, Aug. 31.—The five-cent loaf containing fourteen ounces, is in sight today as a result of governmental wheat price fixing at \$2.20 a bushel for the 1917 crop.

The wheat administration believes that while farmers may be displeased to some extent by a price lower than they expected, the new system will make their profits sure, will prevent speculation, give millers and bakers a fair margin and assure the working man fair priced bread.

The price-fixing committee said today it believed the farmers, as a patriotic duty, should be willing to relinquish some profits for the good of the whole war cause.

Prices for Allies Too
The new prices will prevail not alone for the United States, but also for the allies, for whom purchases will be made through the National Wheat Corporation.

President Wilson expressed himself as confident the price fixing will stabilize the wheat business and work for the general good.

The price-fixing committee started with two extremes, the consumers' desire for \$1.84 and the producers' desire for \$2.50. Compromises, however, were made with the resultant \$2.20 fixed on the basis of number 1 northern spring wheat delivered at Chicago.

FLOUR PRICES
TO COME DOWN

MINNEAPOLIS, Aug. 31.—Flour prices will come down as a result of fixing wheat prices on the basis of \$2.20 for number 1 northern spring wheat, according to millers here today. They were uncertain how great the drop would be.

"The price fixed will naturally mean some reduction in the price of flour," said John Crosby of the Washburn-Crosby Company. "How much it will be reduced depends on the government. The government will determine finally how much we are to be allowed for cost of manufacture."

A. C. Loring, president of the Pillsbury Flour Mills Company, said the reduction in the price of flour would make it "a great deal less than this spring."

Farmers expected not less than \$2.50 for wheat. The price finally agreed on by the government committee will mean that northwest farmers will receive less than \$2 for wheat, some grain men declare. Grain men are inclined to be content with the figure set.

PASADENA MAKING
RAID ON FELINES

PASADENA, Aug. 31.—Meow! Meow! P—ss—!

No, dear reader, that's not a phonetic description of "A Night in the Suburbs"—just merely the storm of feline protest going up everywhere in Pasadena today from cats, stray and otherwise.

Pasadena, you know, through its Humane Society, has started a war on "strays." Armed with nets, traps and the humane folk ought to censor (this) GUNS, Pussy and Tom who have no home are being sought and exterminated. It is estimated today that several hundred have been dispatched in the first day's hunt.

FIRST MUSTER FOR
'GRIZZLIES' TODAY

SAN FRANCISCO, Aug. 31.—The California "Grizzlies" had their first monthly muster today, Captain O. W. Hoop of the Sixty-Second Infantry and Captain McComas acting as mustering officers.

No passes were required of civilians and scores went to Camp Tanforan to see the Grizzlies go through their paces in full uniform and full numerical strength.

MILITARY COMMITTEE
IN ADVERSE REPORT
ON HARDWICK BILL

WASHINGTON, Aug. 31.—The Senate Military committee today reported adversely on the Hardwick bill providing that men drafted are not to be sent to France unless they specifically volunteer for foreign service.

The committee voted favorably on the bill to restore American citizenship to the men who enlisted in the British and French armies before this country entered the war.

MEN ASK THAT THEY
BE SELECTED TO GO
WITH FIRST TO CAMP

Eight Men File Requests, Saying They Are Ready to Move
Fullerton Men Make Up Seven of Ten to Go From District No. 2

This afternoon or tomorrow morning, the exemption board of Orange County District No. 1 will finally settle upon the nine men who are to leave Santa Ana next Tuesday for American Lake, Washington, as the first contingent of Orange county's quota of 181 men.

Orders are that the men who are sent in this first five per cent be men of military experience or cooks. An examination of the registration cards will be necessary to determine the occupations of some of the men. The local board has been delaying the selection of the nine men who are to go from this district, hoping that returns would be received from the appeal board showing what disposition has been made of cases in which appeals were taken from the decision of the board here.

Not hearing from the appeals, the local board will select the nine men from among those who claimed no exemption.

Eight men have filed requests with the exemption board asking that they be allowed to go with the first nine men. These men are Arthur Eells, who has resigned as deputy sheriff and assistant county jailer; Constable Russell Coleman of Santa Ana township; John Holditch, an auto salesman of Orange, who arranged to have his family cared for and withdrew his claim for exemption; Robert A. Bruce, who has military academy training, and who arranged to have his wife go to relatives so that he could go into the army; Carl A. Danielson of Newport Beach; Arthur Stevens, an auto machinist, who lives at the Rossmore Hotel; Ray Glidden, a truck driver, of 20 West Second street; John Wylie of 1030 West Bishop.

OUT OF THIRTY-FOUR
THREE CLAIMS REJECTED

Out of thirty-four claims for exemption passed upon by the exemption board of Orange County District No. 1, thirty-one were allowed and three were disallowed.

The decisions were as follows:

DISCHARGES GRANTED

Manuel Rodriguez, 905 Logan St., wife and three children.

Ottmar J. Linnartz, Olive, wife and child.

Ralph E. Williams, 901 W. Third, wife and child.

Ralph P. Allen, Tustin, wife and child.

Floyd B. Elliott, 1905 Valencia Ave., wife and child.

Roy Barker, Santa Ana R. D. 4, wife and child.

Walter W. Boggs, El Modena, parents and children.

Lester E. Platt, Santa Ana R. D. 4, parents.

John B. Rogers, Orange, wife and two children.

James E. Stanley, Orange R. D. 1, wife and child.

Mark E. Cheatham, Orange R. D. 3, wife and two children.

FIGHTING PARSON OF

OREGON IS MARRIED

SHERIDAN, Ore., Aug. 31.—Rev. Willard Hayes, who left his congregation to win a lieutenant's commission at the Presidio, and Miss Margaret Ferguson of Los Angeles and Seattle, were married August 17 at Astoria, Oregon, it became known today. The wedding was kept a secret. Hayes is known throughout Oregon as "The Fighting Parson."

ALLEGED TROOPS
NEED SUPPLIES
AND MEN

WASHINGTON, Aug. 31.—To keep pace with the demands for more labor units, the War Department proposes to send several regiments of engineers and laborers to France. This developed this afternoon when it became known that the expeditionary force under General Pershing is in need of labor and supplies. Authorization was issued at present for 10,000 engineers including 4000 laborers, but it is understood that these numbers are to be considerably increased.

BY J. W. PEGLER

(United Press Staff Correspondent)

ON THE LINE OF COMMUNICATIONS

IN FRANCE, Aug. 31.—The army behind America's fighting army, needs men and supplies. It is tackling the stupendous job of supplying the fighting forces with scanty doles of labor and material.

Throughout a trip along the "line of communications," concluded today, the most frequent assertion encountered from army men was:

"Some one is asleep at home. The army needs masses of labor—especially carpenters and joiners—and vast supplies of all descriptions. Now is the time to send them, when transport of troops is not occupying the bulk of the tonnage."

After six months, the rear organization of the American army is a mere frame work.

The United Press correspondent has lived for a month with the American troops in the training camp. The men are physically and mentally almost ready to fight. But a tour of hundreds of miles of the American bases gives the striking impression that the rear organizations are far behind their combatant brothers.

Bakery an Example

For instance, a certain base bakery is of makeshift appearance.

It shows a couple of rows of field ovens. The bakers until a few days ago lived in tents. The flour supply looks big to the casual observer, but the towering flour sacks dwindle into mole hills in comparison with the amount every army officer knows must be constantly forthcoming.

A hard working reserve captain showed me over the food magazine—on which he is constantly drawing. The building is only fair sized and yet it is less than half filled.

French female labor is doing steevedore work for this American army in the rear, trundling crates of canned food and supplies, because of the shortage of American military labor.

The American medical base is apparently the only one which has benefited to the fullest possibilities since the war. They have sufficient supplies and forces to cope with extraordinary casualties and illness for three months. However, shortage and cramping even here is causing the storage of a big portion of valuable medical supplies in unvalued and unlooted sheds.

I found the aviation center grimly amusing to leisurely German prisoners thereabouts. Scores of alert Americans are training at French air schools, hoping to obtain repatriation and join the American forces when they attain proficiency in the air.

BILLY SUNDAY ON WAY
TO LOS ANGELES FOR
BIG DRIVE ON DEVIL

Famous Evangelist Says He's
Going to Have a 'Humdinger' Series of Meetings

PORTLAND, Ore., Aug. 31.—Ready to raise hell with the devil, Billy Sunday, "Ma," and the rest of the bunch are on their way to Los Angeles today.

"I've got the punch," Billy declared as he mounted the Shasta Limited here: "We're going to put on a humdinger series of meetings in Los Angeles."

The Sundays spent the summer on their ranch at Hood River. As they prepared to leave for the California city, a 100-pound chest of newspaper clippings covering eastern revivals from John D. Rockefeller arrived.

ONLY 130 PASSED IN
1094 AT RIVERSIDE

RIVERSIDE, Aug. 31.—With more than half the total number of men registered already examined, local Exemption Board No. 1 is in doubt if it has secured enough soldiers to insure its full quota of 127 men, with 10 per cent extra to cover rejections which are expected.

This board has from the first exempted all married men who submitted affidavits proving the dependency of their wives or families, even before the recent order of the President to this effect. The percentage of rejections on physical grounds has also run high, and as a consequence only about 130 men have been obtained from three separate calls, aggregating a total of 1094 registrants.

Unless enough rejections are made of applicants for exemption to build this number up to at least 140 acceptable for service, a fourth call will be necessary.

GERMANY'S RUTHLESS
U-BOAT WAR BE MET
BY U. S. INVENTIONS

Expect Renewed Submarine Activity As Result of Wilson's Reply

BY JOHN H. HEARLEY

(United Press Staff Correspondent)

ROME, Aug. 31.—Intense and concentrated submarine warfare against the United States, as well as England, may be one of the results of President Wilson's declaration of the Pope's peace appeal, in which the American executive clearly showed he was not impressed by the steps toward democratization Germany has taken to date.

Diplomatic circles here today revealed their belief that the Central empires have been aiming through so-called democratic decrees and discussion to influence American public opinion.

The reply of President Wilson is evidence that they have failed in this. Germany's next step, then, diplomats here believe, may be expected in the form of a new outbreak of terror from her U-boats.

Pope Disappointed
Pope Benedict, it was learned today, has expressed himself as greatly disappointed over the rejection of his peace plan by the American President.

According to rumors here, Emperor Karl of Austria and even the Kaiser have written the Pontiff pledges of the widest democratization within their empires.

(This dispatch does not indicate whether these letters were written before or after the Pope issued his appeal, but it is reasonable to assume that it preceded the Pontiff's note.)

In spite of the decrees and discussion within the Central empires and the letters to the Vatican diplomats here believe the "democratic" moves are designed for American consumption rather than for the Teutonic peoples' themselves. Failure of this plan of autocracy then leaves but one alternative—new strokes to crush its foes, which may be delivered by the U-boats, through renewed attempts to starve out England and prevent supplies reaching the American army from the United States.

In the Vatican today it was stated that when replies of all belligerents are received Pope Benedict proposes to issue a statement pointing out the questions of peace on which all agree and separating those on which there are differences. These latter he proposes to make a matter of practical politics.

SPRIT OF WOMEN
INDICATE PEACE

BY CARL D. GROAT

(United Press Staff Correspondent)

WASHINGTON, Aug. 31.—Germany's women are likely to have much to do in remodeling Teuton peace opinion. Suffering from short ration, torn with sorrow over their losses, they are beginning to sulk at continuance of the war. This spirit coupled with a general war weariness and a stirring desire for governmental liberalism, are elements upon which authorities here count largely in beliefs that peace is not far distant.

State department advices today indicate that the coming winter will be the worst Germany has experienced since the great struggle started. Some crops are short. Fats are scarce. Smaller rations are in force.

Kaiser Not Infallible

The Kaiser himself begins to see the signs of trouble for he has ordered the newspapers not to print his name so much. Hence, the German people are no longer fed on fulsome praise of a leader whose authority is being assailed.

One evidence of food shortage is that prisoners, always scantily fed, are now on even lower rations. Turnip and beet soup, sometimes flavored with nettles, with now and then a potato, constitute the bulk of their diet. To make their lot worse, Germany is forcing them to work for the west front, frequently in direct line of fire.

All this is found in official reports showing that a revolution may be nearer than surface indications show. Confidential messages indicate the liberals are growing bolder. Officials believe when the full force of President Wilson's message strikes them, they will place power in the people's hands, rather than with the Kaiser and his war lords.

This government will see that actual translations of the President's reply to the Pope reach Germany to correct impressions that America's spirit is one of butchery and conquest.

Wilson has held out the first ray of hope to the German people by showing clearly that peace negotiations are not undertaken, once the plotting, murderous Hohenzollern regime is side-tracked.

This government will promptly undertake peace proceedings when this comes about.

It will notify the allies that the reforms have been accomplished and that they must fall in line with the peace negotiations.

SHIP BUILDERS VOTE
TO STRIKE WEDNESDAY

SEATTLE, Aug. 31.—Twelve thousand shipyard employees voted today to strike next Wednesday.

ORPHAN COUNCIL
SEEKING PLACE
IN WHICH TO
HOLD MEET

Turned Down In Minnesota and South Dakota, Go to Wisconsin

NEXT STOP MAY BE IN WASHINGTON, D. C.

Press Agent Tells of Big, Enthusiastic Crowds Meeting Special

MINNEAPOLIS, Aug. 31.—The orphaned People's Council, disowned by the states of the Middle West, is making plans to hold its proposed peace conference in Washington, D. C., on next Sunday, it is announced today. Officials are going to try to make arrangements with Congress to sanction the meeting.

DRIVEN FROM HUDSON BY MOB

MINNEAPOLIS, Minn., Aug. 31.—The People's Council, denied the right to meet in Minnesota and at Fargo, N. D., and driven out of Hudson, Wis., by a mob, announced today that its problem will be laid before Congress.

Council officials now in Minneapolis plan to leave tonight for Washington. It was announced here that the "Hohenzollern special" from New York, bringing delegates to the meeting, will be halted at Elkhart, Ind., and sent back to New York.

ENTHUSIASTIC CROWDS GREET TRAVELERS

NEW YORK, Aug. 31.—Reports from the "front" as the eastern delegates to the People's Peace Council proceeded westward today show that they think they are going to Hudson, Wis., the latest town to prohibit the peace assembly originally scheduled to start in Minneapolis tomorrow.

The press agent filed a thrilling account (paid) to the United Press from Buffalo telling of enthusiastic crowds that greeted the peace special at Syracuse and Rochester.

At Rochester, it was stated, "2500 to 5000 people had wanted until midnight."

The Young People's Socialist League of Rochester presented the peace delegates with a huge mass of roses to which the legend, "Thou Shalt Not Kill" was attached, the council's press agent related.

GARY SAYS DANGER OF WEALTH CONSCRIPTION

SA FRANCISCO, Aug. 31.—There is danger of going too far in wealth conscription, demoralizing business and discouraging investment, according to Judge E. H. Gary, head of the United States Steel Corporation, who is in San Francisco today, returning from an Alaskan trip.

"The longest purse strings will win this war," Gary declared. "Our resources should be husbanded, not destroyed, nor prevented from development." Gary added that he fully realized the necessity of the government raising money through income and other forms of taxation.

According to Gary the end of the war is a long way off and the hardest part of the struggle is to come.

'BUNDLE OF PEP' TO START WORK AT CAMP

SAN FRANCISCO, Aug. 31.—Major H. J. Koehler, master of the sword at West Point and known in the army as "The Bundle of Pep," was at the Presidio today, preparing to start instructing selected groups of student officers in the training camp, in army calisthenics.

"The major can put so much zip in a company that the members want to drill double time all the time," declared Colonel Sladen, camp commandant. Major Koehler will begin his courses Monday.

In the meantime the elimination board got busy. Major G. S. Norvell, adjutant, said the examining physicians had made a few mistakes and the board will rectify them. Men found physically unfit in the second examinations will be the first "eliminated."

HEADS BROKEN IN S. F. STRIKE RIOT

SAN FRANCISCO, Aug. 31.—Several broken heads, three arrests and half a dozen badly battered street cars were the results of friction late yesterday between strike sympathizers and strikebreakers.

About a thousand boilermakers and iron workers, returning from work, started stoning Union Railway Street cars at Twelfth and Market streets. A few passengers were slightly cut by flying glass. Police swung their clubs lustily and soon quelled the disturbance.

Municipal auto bus service was scheduled to start in the Sunset district today.

BRITISH REPULSE ENEMY RAID

LONDON, Aug. 31.—Repulse of an enemy raid north of Arleux on Forelle, following a heavy bombardment of British forward positions, was reported today by Field Marshal Haig.

DRAFTED MEN TO BE PRESENT AT FAREWELL IN NUMBERS

Demonstration Meets With Approval and Indications Every Man Will Attend

Drafted men of the country are fully appreciative of the compliment to be paid them tomorrow night at Birch Park and indications are that every one will be in attendance.

The publicity given in newspapers of the county has informed every man of the proposed farewell tomorrow evening. Personal invitations could not be sent to them because of the short time in which to make the preparations.

Every resident of the county should turn out and give the boys one of the biggest demonstrations ever held in the county. It is a matter in which all are concerned—to see that the boys who are to assist in fighting the battle of this and the allied nations for democracy have evidence that the people are with them heart and soul.

Many of the conscripted men are severing business relations which they have taken up for their life's occupation and are making heavy sacrifices that they might give their lives if need be in the preservation of the ideals which have made the United States the envied nation of the peoples of all nations.

The demonstration tomorrow night will ever live in the hearts and minds of the men who are to be the recipients of the honors to be conferred at the farewell.

Mayor Visel, Clyde Bishop and Assemblyman J. C. Burke and C. C. Chapman of Fullerton will be the speakers. Public singing will be led by Harry Garstang and the Elks' Band will render selections during the program with a concert at its conclusion.

C. OF C. SECRETARY OF SANTA ROSA GOES TO RENO POSITION

SANTA ROSA, Cal., Aug. 31.—Walter Nagle, well known in California as secretary of the Santa Rosa Chamber of Commerce, has resigned his Santa Rosa position and on September 15 will go to Reno, Nevada, to become secretary of the Reno Commercial Club. One of Nagle's biggest works in California has been his part in the formation of the state association of commercial secretaries in which all California Chambers of Commerce and Commercial bodies are represented and which now is a thriving institution.

308 East Fourth St.

ON WATCH FOR GERMAN SPIES IN AMERICA

WASHINGTON, Aug. 31.—Government sleuths are watching for evidence of Teutonic frightfulness among the Kaiser's spies in all parts of the country, it was learned today.

The government knows there are plenty of Boche apostles scattered through the United States who would be delighted with a chance to feed children poisoned candy, sprinkle poison in wells and reservoirs and do other things of the sort.

Every effort is being made to "spot" these pleasant creatures. Many of them have been arrested quietly.

So anxious were the Kaiser's agents to poison children in Rumania that they flew over that land in aeroplanes and dropped sacks of poisoned candy, which the children ate and within twenty-four hours died in agony from the effects of the tainted sweets.

The government wants to control this situation and at the same time avoid engendering suspicion and hatred of loyal Germans among the country's citizens.

In announcing that it had found tetanus germs in samples of court plaster distributed by anonymous peddlers in various parts of the United States, the Department of Justice prefaced its statement by saying that it did not "share in any sensational view as to the manner in which the court plaster became infected."

"But," it added, "the public is cautioned against purchasing this remedy except from approved sources, the warning being particularly directed against purchases in small packages from street peddlers and vendors."

Jean Cronas, the Kaiser's chief who poised the prelates' soup at the Chicago banquet, thus producing a straw which showed the way his mental mind blew, is still at large in the United States.

The government has secret information showing that Cronas has many kindred spirits of his own bent in our midst, men who await only a good chance to murder babies, poison men and women and start fatal epidemics among communities by the proper distribution of a flock of pet germs.

BUILDING STRIKE IN LOS ANGELES LIKELY

LOS ANGELES, Aug. 31.—A building trades strike will probably be called here Tuesday or Wednesday of next week. With the demand of 1200 cabinet makers for a \$4.50 scale, eight-hour day and a closed shop ignored and the demand of 900 carpenters for a \$5 scale, Saturday afternoons off and a closed shop likewise tabled by the Master Builders' Association, the breach between employe and employer threatened a walkout. A strike of both organizations shortly after Labor Day is expected.

"No bowl is too big when it holds Post Toasties"

TO SHOW MOTION PICTURES AT CHURCH ON SUNDAYS

Congregational Church Installs Equipment to Show Biblical Films

Moving pictures will be a feature of the Sunday evening church services at the First Congregational Church after next Sunday.

A Simplex moving picture machine is now being installed in the church and the equipment will be ready for operation on the second Sunday in September. The equipment has been purchased at considerable expense and arrangements have been made for a series of high grade educational and Biblical films.

Dr. F. W. Slabaugh has been qualifying himself and will have direct charge of the projecting machine.

The Congregational is the first church in Santa Ana to adopt the moving picture to church use, although many of the local churches have been discussing the matter for some time.

GOVERNMENT TO PUT AN END TO CHILD LABOR

BY GEORGE MARTIN (United Press Staff Correspondent)

WASHINGTON, Aug. 31.—The long arm of the Government will reach down into American industries tomorrow and begin lifting more than 150,000 American boys and girls out of the ranks of child labor. It will see that no more little children join those ranks where it has jurisdiction.

The Federal Child Labor law passed last year is effective at midnight tonight.

Under the direction of Miss Grace Abbott, Chicago, in the labor department's children's bureau, children under sixteen in quarries and mines and under fourteen in mills, canneries, workshops, factories and manufacturing plants doing interstate business, will be taken out and kept out.

Only Eight Hours a Day

In addition, Miss Abbott and her country-wide corps of inspectors and assistants will see that no children between 14 and 16 years of age are employed more than eight hours a day, nor before six a. m. nor after 7 p. m.

What provision will be made for the care and education of this army of little ones thrown out of employment tomorrow is up to the various states.

"Both friends and foes of the law are asking," said Miss Abbott today, "Some states still have no compulsory education laws. Others let good laws go unenforced. This is a problem all states should settle at once."

"As a war measure," Miss Abbott said, "the law is peculiarly urgent now. The war makes it especially important to protect our children. Our hand has been strengthened since the law was passed by the adoption of compulsory education and child labor legislation in various states, including Arkansas, Illinois, Kansas, Oklahoma, Tennessee, Texas and Vermont."

Release 27,023 Under 14
"On the basis of the last figures we estimate that 27,023 children under 14 will be released tomorrow and later from manufacturing and mechanical establishments; 17,667 under 16 from mines and quarries."

"These figures do not include thousands of children who worked in canneries in August and September and who will be barred under the federal law. Maryland, Delaware, Michigan, Virginia and Indiana permit child labor in canneries but the new law stops that if the products are shipped between states."

WAR REAPS TERRIBLE TOLL DURING AUGUST

LONDON, Aug. 31.—The fearful fighting of the Flanders offensive of the past month cost England 60,373 casualties in killed, wounded and missing, according to compilations announced today. The figure is below that of last month (which was 71,998) but the losses of officers were very much greater. The total in July of officers killed, wounded and missing was 2,426. In August it had jumped to 5,480.

The detailed figures for August were:

Killed	Wounded	Missing	Total
Officers . . 1,317	3,796	367	5,480
Men . . . 11,564	40,373	2,956	54,893
12,881	44,169	3,323	60,373

200 MEN AT WORK ON CAMP FREMONT SITE

SAN FRANCISCO, Aug. 31.—Construction work at Camp Fremont was in progress again today, despite the War Department's announcement that the camp had been finally abandoned. Late yesterday Captain J. W. Jackson, quartermaster for the re-mount station, received telegraphic orders to hire 100 men and clear the site for the station. Simultaneously the civilian commissary was ordered to prepare to feed from 500 to 800 workmen by Tuesday of next week and the big trench digging machines resumed the excavations for the water mains. Nearly 200 men went to work at the camp this morning.

No direct indication of the purpose of this resumption of activity has been given.

What's New For Fall?

A GOOD many men and young men are asking that question about clothes.

Here's the first item of interest: Hart Schaffner & Marx suits and overcoats for fall have arrived.

The popular fabrics are worsteds, chevots, tweeds, iridescent shades, greens, browns, grays, in checks, plaids, stripes, and mixtures—and they're all wool, every one of them.

Military touches in suits and overcoats are the big idea; belts all around, pouch pockets with flaps, patch pockets, accented waistlines. These are just a few of the newest features.

We don't need to argue about the merits of Hart Schaffner & Marx clothes; you know they're good clothes; you know that they are guaranteed to give you satisfaction or your money back.

The values are unusual.

ADD COURSES IN VOCATIONAL EDUCATION

SACRAMENTO, Cal., Aug. 30.—Scores of high schools in the state are making application to Edwin R. Snyder, state commissioner of industrial and vocational education, for the establishment and maintenance of federal and state aided vocational courses under the federal vocational education act.

As the main purpose of the act is to promote clearly defined courses in vocational education, the state board of education has limited the courses to agriculture, trade, home economics and industrial subjects.

Schools that establish educational courses will be allowed a sum equal to one-half the amount of the salary of the teacher, provided the salary shall not be less than \$1,500 per year

or the reimbursement more than \$1,000 per year.

The requirements under this course are: That not less than three hours per day of each pupil's time must be devoted to farm project work and instruction in farm mechanics, and not less than three hours in academic class work.

That each pupil shall conduct at least one farm project during the school year, and that such work shall consist in producing and marketing farm, orchard, vineyard or garden crops, or of bees, poultry or stock.

That the project work must be conducted upon a commercially productive basis. Each pupil must buy or lease the necessary land or animals; purchase the seed, fertilizer and feed; employ labor; market his crops and keep a record of these and other transactions and the accounts must balance.

An boy or girl over 14 years old, without regard to scholarship or grade of school previously attended, shall be admitted to take the course. There is no failure under the course. Each pupil must be given a certificate after completing the year's work, containing his correct rating in percentages in each subject.

Big Candy Specials at the Dragon tomorrow. Coconut Fluffs, 40c lb.; Butter Scotch Wafers, 20c lb.

BIG ATHLETIC EVENT OPENS IN ST. LOUIS

(By United Press)

ST. LOUIS, Mo., Aug. 31.—The first big sporting effort since the United States entered the war against Germany was staged here today by the Amateur Athletic Union when it started competitions in its annual games.

Athletes from all sections of the country were in attendance in spite of the fact that many powerful clubs voted not to send representatives. Prominent athletes, whose former clubs are not officially participating, are taking part as unattached men.

Intentions of the union early in the year to make the annual games that in name only failed. An effort was made to do away with the custom of awarding medals to victors and the second and third place in each event,

supplementing the medal awards with certificates. The action raised such a storm, however, that at a recent meeting in New York it was decided to go ahead as usual.

Among the more prominent athletes who will be on hand when the senior contests are held tomorrow will be Robert Simpson, University of Missouri hurdler, holder of the world's records in the 120 and 220 events. He has declared it would be his last appearance in the national games.

Larsen, the wonderful jumper from the West, also will be there. Added will be a large delegation from the Chicago Athletic Club and the Illinois Athletic Club, the two big organizations in Chicago, Missouri A. C. and other clubs in St. Louis and the Kansas City Athletic Club will have large entries.

The junior events will be held today, the senior events tomorrow and the all round championships Monday.

PICTURES TAKEN OF HARBOR CONFISCATED

SAN PEDRO, Aug. 31.—Pursuing a north-bound steamer in a fast government craft, federal agents early today halted the vessel and arrested A. A. Walsh, William Fox motion picture director, and his entire company. Film taken of the harbor and fortifications was confiscated.

SOLDIERS MUST BE OWN DISH WASHERS

Not So Much to Eat While on
Hikes But More Than They
Get In Germany

BY GEORGE MARTIN
(United Press Staff Correspondent)
WASHINGTON, Aug. 31.—On the
march or camped on hikes, the sol-
diers of the new national army won't
fare so sumptuously as in cantonment.
Still they'll have lots more three times
a day than some folks in Germany
are getting.

Also they'll have to take care of
their own mess kit. No dining room
orderly will set the table with knife,
fork, spoons, plate, cup and saucer.
They will have to take those things in
hand, line up before the serving ket-
tles, take the meal wherever they like
to eat it and wash the individual din-
ner dishes afterward.

They'll have to wash them properly,
too. If they come up for inspection
with a greasy spoon or something,
they will be punished.

Nor will eating the meals be the
pleasure it is in permanent camps.
They'll have to learn the rudiments of
juggling and something of the art of
acrobatics. Balancing a

plate of beef and beans, a tin cup of
coffee and a knife, fork and spoon
while choosing a smooth, hard spot
somewhere on the landscape for a din-
ner table is no snap.

In temporary camp there will be no
time for fancy breakfasts. If the sol-
dier gets fried bacon, boiled potatoes,
bread and coffee he may count him-
self lucky.

For lunch, the chances are, he'll get
canned corn beef, or fried bacon or
canned salmon, cold canned tomatoes,
hard or fresh bread and coffee.

For dinner he'll most likely get
canned soup, boiled or roast beef,
mashed potatoes, peas, corn or succo-
tash, bread and coffee. Mostly canned
stuff and hastily, though properly pre-
pared, but with no attempt at style.

But it will be interesting to watch
the tricks of the trade employed by
the camp cooks with their little vest
pocket camp cooking outfits.

For instance, when they want a fire-
less cooker for the dinner beef they'll
take a bundle of straw, the morning
milk can and the camp ash can. Put-
ting the milk can inside the ash can,
they'll pack the straw around it, slap
the beef inside and milk can, clamp
down the lid, pack straw on top, clamp
on the ash can lid and let'er go.

Practically every utensil in the ab-
breviated cooking outfit serves an in-
genious double or triple, sometimes a
quadruple purpose.

NEW HEAD NAMED FOR AMERICAN COLLEGE

ROME, Aug. 31.—Vice Rector
O'Hearn of the American College, for-
merly of Chicago, Ill., was today named
to succeed Monsignor Kennedy as
head of that institution. Mgr. Ken-
nedy's death a few days ago occasion-
ed universal sorrow in Rome.

GROWERS ASKED TO SHOW THEIR PATRIOTISM

Bean Prices Will Not Be Fixed
By Government Unless
Prohibitive

OXNARD, Aug. 31.—Prices of beans
will not be fixed by the government if
this important commodity does not ad-
vance to a prohibitive cost to the con-
sumers. This is the word of R. L.
Churchill, manager for the California
Lima Bean Growers' Association,
brought back from Washington, where
he went for a conference with H. C.
Hoover, food dictator.

"Whether the government will fix
bean prices or take over the market-
ing of beans is not definitely settled,"
said Mr. Churchill. "Mr. Hoover made
it plain that the President, through
him, would take charge if prices be-
came prohibitive, as beans are espe-
cially mentioned in the law. However,
Mr. Hoover appealed to the patriotism
of the growers and brokers not to un-
duly advance the market and throw
this burden on the government. Mr.
Hoover urged them to be content with
a fair profit."

"That means, then, that you will
recommend to the directors that they
do not fix the price of beans too high?"
Mr. Churchill was asked.
"Not necessarily," he replied with a
smile. "The directors will make a
price that is right, however, and the
government will permit a good price."
Mr. Churchill asserted that 10-cent
beans would not be high in compar-
ison with \$2 wheat.

PLANS MADE FOR NEW S. F. CIVIC BUILDING

SAN FRANCISCO, Aug. 31.—Chair-
man Ralph McLean of the San
Francisco Board of Supervisors' Building
committee, today prepared to
take the question of the design for
the state building in the San Fran-
cisco civic center, up to Governor Ste-
phens himself. This action followed
a declaration from the state architect,
George B. McDougall, that there would
be no reconsideration of the building
plans and that the matter is closed.

With the receipt of McDougall's uti-
lization McLean made public corres-
pondence in which John Francis Neylan,
former chairman of the State
Board of Control, accused unnamed
San Franciscans of playing "peanut
politics."

McLean seeks to have the plans
proposed by the state modified, de-
claring they call for a building out of
harmony with the architecture of the
civic center.

MAY EXEMPT INTERNES AND MEDICAL STUDENTS

WASHINGTON, Aug. 31.—Hospital
internes and medical students who
have been more than a year at col-
lege may be exempted from military
service under the selective draft bill
by regulations issued yesterday. The
War Department is anxious not to in-
terfere with the professional educa-
tion of these men whose service as
doctors may be necessary before the
close of the war.

Enlistment in the enlisted reserve
corps of the army is the way found by
Provost Marshal General Crowder to
accomplish the desired result. The
student will enter the military ser-
vice and may later be discharged to
continue his education or practice as a
civilian.

Fruit Canning

season is now in full swing. Every-
body buying caps, rings, sealing
wax, paraffine and lots of sugar. We
want to help you some and we will
sell 11½ lbs. Granulated Sugar for
\$1.00, or 12 lbs. Granulated Sugar
for \$1.00 with every \$2.00 purchase
of other groceries and vegetables.

12½ lbs. Granulated Sugar for
\$1.00 with every \$3.00 purchase of
other grocery and vegetables.

13 lbs. Granulated Sugar for \$1.00
with every \$4.00 purchase or more
of other groceries and vegetables.

These prices good for Saturday and
Monday only. Better take advan-
tage of these prices while you have
the opportunity.

TEACHERS READY FOR OPENING OF SCHOOL

Anaheim Union High Starts
Year With Teaching
Force of 22

ANAHEIM, Aug. 30.—Announcement
has been made of the opening of the
Anaheim Union High School, Septem-
ber 11. The school will commence
work this year with a force of twenty-
two teachers, as follows: Claude R.
Prince, A.B., principal; A. C. Har-
grave, vice-principal, mechanical arts;
Kathleen Byam, A.B., oral English;
Gertrude B. Cain, A.M., Spanish; E. L.
Campbell, A.M., chemistry; J. A.
Clayes, commercial art; G. W. Henry,
A.M., biology; C. P. Macintyre, A.M.,
English; J. S. Malcom, A.M., social
science, athletics; L. P. Nichols, A.B.,
social science; Bernice Kichey, A.B.,
mathematics; Lillian R. Rivers, A.B.,
commercial; L. Mary Ross, A.M., Lat-
in, Spanish; Helene J. Sloane, music;
Ottile Stechert, B.L., Latin, German;
L. Lucile Turner, B.L., domestic sci-
ence; Bella J. Walker, A.B., English;
Grace A. Willett, A.B., English; F. R.
York, physics, mathematics; Nina C.
Hargrave, study hall; Ruth Winters,
secretary to principal; H. W. Com-
stock, janitor.

FINANCE FORCES BADLY DIVIDED

Borah-Johnson Group Not
Beaten, But Are Unable
to Attain Ends

WASHINGTON, Aug. 31.—Divided
forces among those opposed to the
Finance committee tax bill have made
its final adoption and defeat of the
"wealth conscriptionists" certain.

After many conferences and cloak-
room meetings, all factions in the big
revenue fight today agreed that the
committee had the upper hand. The
Bankhead-Underwood allies admitted
they couldn't win because the commit-
tee had yielded in part to the demands
of the "conscriptionists."

The Borah-Johnson group of 80 per-
cent on-war-profits enthusiasts can't
win without the aid of the southern-
ers and they won't support the Bank-
head plan.

Borah-Johnson Not Beaten
The Borah-Johnson faction is not
completely beaten though they can't
get their desired end. They have
forced the committee to accept a ma-
terial increase in profit tax schedules.

With opposition forces divided,
Senator Lodge today predicted prompt
defeat of the Bankhead proposal and
acceptance of the latest committee
plan.

With the closure threat definitely
removed by agreement to vote on the
bill not later than 4 p. m. Monday,
September 10, the Senate settled down
to heavy fire on war profits today. La-
Follette has a group of amendments.
Johnson has his proposal to tax profits
80 per cent. A vote on this section
has been agreed upon for next Wed-
nesday afternoon. A week from today
the Senate will vote on the income tax
section.

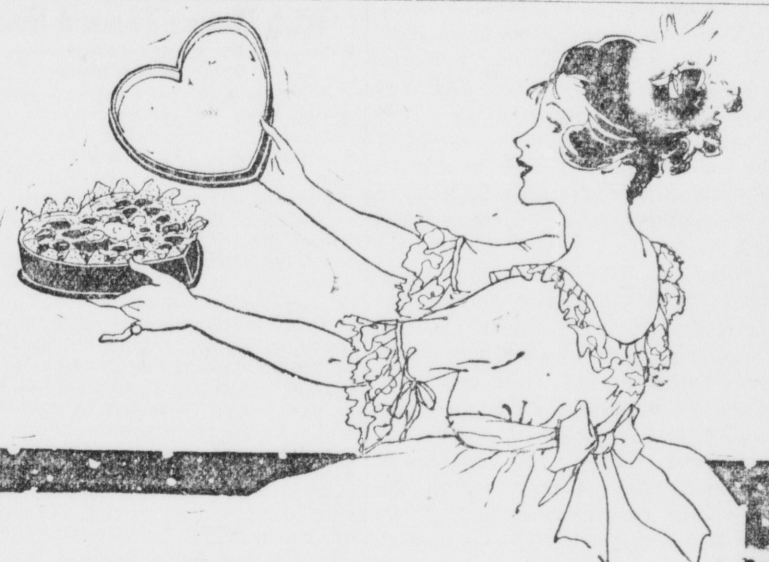

LONG BEACH TO HAVE BIG PARADE SEPT. 4

LONG BEACH, Aug. 31.—With a mil-
itary parade, martial music and patri-
otic oratory, the city will celebrate
September 4 in honor of the nine
men composing the first increment of
Long Beach conscripts to leave for
cantonment. Public Affairs Commis-
sioner Eugene E. Tinscher, Jack L.
Adams and Secretary Lynn W. Bal-
lard of the Chamber of Commerce are
members of the committee on arrange-
ments.

The G. A. R. and other patriotic or-
ganizations will march with the draft-
ed men, passing beneath an arch into
the municipal auditorium. A similar

demonstration will be made at the de-
parture of each of the succeeding
units of conscripts. Thirty men have
applied with the local exemption board
to be included in the first increment
of nine soldiers.

Dr. Enoch, phone 602W. 411½ Main.

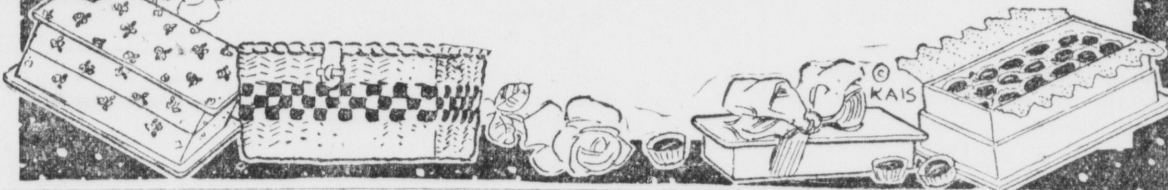

Dragon Saturday Specials

Cocoanut Fluffs, per lb.40c
Butter Scotch Wafers, per lb.20c

ONE OF OUR BIG SPECIALTIES THIS WEEK IS
MILK CHOCOLATES

Made of sweet milk and rich chocolate. The nutty, creamy flavor is
delicious. Everything in our candy department is perfectly fresh.
Every ingredient is absolutely pure. Every piece of candy is uni-
formly good. These are the three standards we adhere to strictly.

Dragon Confectionery Company

By All Means Buy Only the Best Meat

Inasmuch as meat constitutes such an important part of most peo-
ple's meals, isn't it vitally important that it be fresh, young and gov-
ernment inspected?

You can always tell good, quality meat from the other kind by the
markets who sell it.

Extra good quality clean meat is sold in a clean, sanitary market.
Always look for a clean, sanitary market.

CONCRETE SHIPS

There may be a useful hint for Uncle Sam, shipbuilder-to-the-world, in a nautical novelty just turned out by Norway. It is a ship built of steel and concrete.

Apparently the designer has applied to marine construction the familiar principle of American office-building architecture. There is just enough steel used to provide a reinforcing framework for the concrete. Presumably there is a stout steel beam for a keel, with smaller beams radiating from it like a fish's ribs. And very likely there is a network of steel rods running through the whole extent of the concrete wall like the steel mesh in fireproof window-glass, in order to minimize the danger of a crack in the hull.

There seems to be nothing really absurd in such construction, from the standpoint of theoretical engineering. There is no known reason why a concrete hull will not float and move about in the water about as well as a hull of steel or wood, if it isn't too thick and heavy for convenient handling. And it may be as the Norwegian designer insists, that the new device is practically as strong as steel plates. Torpedoes would sink such ships—but torpedoes sink steel ships. Certainly it is incomparably cheaper and quicker to build.

The first vessel of this type—a small one of 200 tons—was launched in three weeks. Subsequent hulls can be turned out in half that time. It's something like Edison's famous standardized concrete houses. There's little to it except pouring the concrete and giving it a few days to harden. The builders expect to go ahead and make such craft by wholesale, in sizes up to 1,000 tons.

There's something for Uncle Sam to keep his eye on. If concrete ships are really practicable, we might spend a few odd hundred millions on them, as part of our huge merchant marine plan.

LET THEM VOTE

Former Czar Nicholas has asked permission to vote in the coming elections, which are to determine the character of the new Russian government. So have the former grand dukes and grand duchesses.

If the revolutionary gentlemen now directing the destinies of Russia were to ask our advice, we would say, "By all means, let 'em vote." To enfranchise these personages who formerly played so big, predatory and disastrous a part in Russian history would be more than a merely gracious and generous act. It would provide a rare spectacle of true democracy.

Picture the former Czar of All the Russians walking into a voting booth and casting his ballot just like any of the 180,000,000 people whose fate he lately held in his hand. Picture the Russian grand dukes, the haughtiest and most exclusive class on earth, lining up with peasants whom they used to look upon as nothing more than cattle, and realizing that their votes counted no more than the votes of those same peasants.

It would be fine for the former royalty and fine for the former "cattle." It would emphasize the fact of basic human equality as no written Declaration of Independence could ever do. It would have a salutary effect on aristocracy in general, and would put new dignity into the souls of common men and women.

This interesting request, by the way, looks like a good omen for the success of the revolution. When the royal family asks for citizenship in the new republic, it must be convinced that the republic is a sure thing.

BACK TO THE SEA

The old lure of the sea is to be renewed and strengthened by the United States government. The hard and unjust conditions of the seaman's life that drove even the lovers of the sea to take employment upon land are to be abolished. The government, co-operating with representatives of ship-owning employers, the International Seamen's Union and the Masters, Seamen and Pilots' Associations, intends to make real careers possible for the men who go to sea. The groups interested have held a

series of conferences. Last May these conferences produced a tentative agreement which has since been ratified by the men of the various parties. This agreement provides for an advanced scale of wages. It ends the struggle between ship-owners and organizing crews, the fight over the seamen's act, and it buries most of the bones of contention between the employers and employed of the sea.

As usual when actual conditions are faced, self-interest is found to be on the side of justice. Employers or workers, it makes no difference. Both sides have to play fair in order to achieve their own best interests. In this case the ship-owners are anxious to charter the new merchant fleet the government is building at top speed. And so they hearken to the voice of the government as it demands full opportunity for the seaman, favorable surroundings and a chance to develop his individual capabilities. The government ideal is to place the American seaman among the most advanced of the wage-working groups of the world.

Under these improved conditions the old-time custom of teaching sailing to sea-loving boys will be resumed. We must have the men to run our new merchant fleet. Assurance that they will receive just treatment and enjoy every opportunity for advancement ought to be successful in alling large numbers of men of a high type back to the sea.

With Malice Toward None

By Henry James
Rules of the Road

Some people who run automobiles really have not sense enough to be engineers directing the destinies of wheelbarrows. It is amazing to see how some of them ignore the rules of the road, many of which are mere formulae of common sense. Doubtless there are accidents that could not have been prevented, but probably ninety-nine of each 100 are the result of carelessness. Some motorists seem to think that if they sound their horns traffic of all sorts must fall away after the manner of the walls of Jericho, leaving them an unencumbered earth on the bosom of which to cavort at will. These do not care how much property they destroy or how many useful people they kill or maim so that they get away from the spot at sufficient speed to prevent the reading of their number. Occasionally such an offender gets jailed or fined, but never, it is believed, undergoes any process that puts brains under his hat. Public safety lies in taking his machine away and forbidding him to run it or another for fifty years.

Public Enemies

Several men are under arrest on suspicion that the opium found in their possession was intended to sell to United States soldiers. If to destroy the usefulness of a soldier is not to lend aid and comfort to the enemy, nothing is; such a loan is described technically as treason.

Has Lost Count

A worthy and enterprising matron recently was in court for the purpose of attesting the age of one of her daughters, and couldn't do it. No occasion for surprise, the daughter being one of twenty-four children, and the mother no mathematician.

In the Matter of Culture

Although said to be "a woman of culture," a certain prisoner charged with burglary attributes her larcenous tendency to drink; showing that culture is a term subject to various interpretations. Could it have been "kultur" that the reporter had in mind?

The Skeeter

(Poem adapted only to certain localities)
If there is aught could make life's aspect sweeter,
Or cause this earth to seem a better place,
We think the same the absence of the skeeter;
Oh absence rare! Oh boon denied the race!

'Tis in the sultry night, as sleep comes slowly,
The skeeter bird arrives to bite and sing;
And who could keep his temper even, wholly,
Who freely slaps but never hits a thing?

The creature lands where never hand may reach him,
And deep inserts a long and heated bill;
All useless are the words that would impeach him;
He hears such uttered, and he sings on still.

With fervid zest the hapless victim scratches;
In vain he seeks to ease the burning which
The skeeter gives while humming happy snatches,
His gloating note oft raised to concert pitch.

Oh skeeter, will you list a plea pathetic?
We cannot get away, and you must feed;
But can't you use some pleasing anesthetic,
And earn due credit for a kindly deed?

Preserving the Teeth
Something new has come to light as to preservation of the teeth. Heretofore the idea has been to preserve them in the place where they grew. Now the owner has to preserve them after they have been yanked out by the roots, the purpose of this thrift being to bolster up the faith of exemption boards in the integrity of their fellow men. While a fellow who has solid teeth pulled to prevent being sent to the front is nothing to be proud of, he has such nerve that were a pity not to let him have a chance at the enemy.

Shoot the Pickets
The word "shoot" is used here precisely as in the expression "shoot the hat." It is an indication of distaste rather than of hostile intent. And similarity, it may be said in good

Anthem of the Flowers

Christian Herald

It must have been July or August when the seer of Bible times sang, "My beloved has gone down into his garden to gather lilies." Spring took away from us the formal tulip and hyacinth; the thickening lawn grasses now hide even the stem of the faded crocuses and snowdrops; but midsummer has brought us full recompense in the glory and color of the old-fashioned favorites, the love of which is a blessed heritage. Here and there a few late roses, mainly of the lighter tints, are disappearing, so that with a resembling face the daughter buds may arise. Iris, in many shades of white and purple, holds its head proudly high, and defies the sun and sudden showers to ruffle the carved beauty of its petals. Marigolds of wild Arabian lineage blend their golden brown with many-hued sweet williams. Where but in a sweet pea, or possibly in the newly developed snowdrop would one expect a pinkish purple or a yellowish pink? What carnation compares with that of the hollyhock, and what purple is more deep and colorful! And midsummer brings us larkspur and foxglove and tall spiked veronicas, blue as though the

blue skies were reflected in their faces; with white candytuft and sweet alyssum, nestling at the foot of taller warm-red sweetbalm, and the russet brownish yellow of gaillardia and coreopsis.
Who that has ever reveled in a garden after a shower, or in the early morning, when leaf and bloom are heavy with dew, and has watched the bee industriously carry pollen, and the hummingbird drinking nectar out of nasturtium cups, does not realize the truth of the old saying that "flowers preach to us if we will but hear"—preach of order, of grace, of grandeur, of loveliness? Yet the garden is merely the development and rearrangement on formal lines of the floral order of nature which we see in field and woodland. What gardener could hope to rival those magnificent banked masses of verdure and blossom, the profusion of which appeals to the senses as no laboriously cultivated garden ever can? Our midsummer flowers, in spreading out their varied perfumes, are lifting up an anthem of bloom and fragrance which is acceptable to the cerator, who has blessed the earth so abundantly with their presence.

Danger of Being a Baby

Kansas City Star

Great Britain, which has been deplored the number of men killed in the war, has just awakened to the fact that more babies under one year old have died, and are dying, than men killed.

In the fighting force of Great Britain nine men were killed in battle each hour, day and night, in 1915.

In England and Ireland alone twelve infants died each hour, day and night, in the same period.

A great furor and national mourning because of the slaughter in war. No excitement at all about the infant mortality until some medical men pointed out that the great majority of those babies died of preventable causes. Then England was shocked. Further investigations disclosed that in 1916, of 986,821 babies born in Great Britain and Ireland, 99,067 died before they were one year old; and that an equal number died before birth; that many of those who live are crippled and otherwise deficient.

England demanded more statistics and has just learned that ten per cent of all children medically examined when entering school at five years of age are physically unfit; and that one million men applying for military ser-

vice had to be rejected because they were physically unfit.

Then the nation got fully aroused to the fact that ignorance and carelessness and bad living conditions were more destructive to human life than war. So England started out on a baby saving campaign, and David Lloyd George, the prime minister, became president of a society that had for its motto, "Save the babies and rebuild the nation."

Dr. S. McC. Hamill, president of the American Association for the Study and Prevention of Infant Mortality, said in a speech at a recent meeting of that society that Americans need not think that they have been ahead of England in saving babies. England had done more than America to save the babies, and had cut down the infant death rate from 145 per 1,000 in 1904 to 105 per 1,000 in 1910; while the American rate is about 120 per 1,000. Persons who attended the child welfare exhibit in Kansas City a few years ago will remember the rapidly flashing light—flashing for the deaths of babies.

And these deaths could be largely prevented if society were sufficiently interested!

Analysis of County Finances

BY TAX PAYERS' ASSOCIATION OF CALIFORNIA.

In California the county governments act as agents for road districts, school districts, etc., in levying and collection of regular and special district taxes. The collections are accounted for as county receipts, and are then paid out to meet the purposes for which authorized.

In the fiscal year 1916 the enormous sum of \$19,502,826.14 was received by the 57 counties for the districts lying within them. This amounted to a little more than \$7.21 per capita for the population of the entire state, excluding San Francisco.

The largest amount was collected for common school districts. High school districts came second and road districts third. District receipts accounted for by Orange county, and also the receipts of the 57 counties, both in amounts and per capita, are here shown.

57 Counties

Road districts	Amount.	Per Capita.
Common school districts	\$1,840,300.92	\$0.6810
H. S. districts	12,330,189.20	4.5628
Reclamation Dist.	3,635,217.86	1.3445
Other districts	1,161,503.58	0.4298
Total	\$19,502,826.14	\$7.2170

Orange County

Road districts	Amount.	Per Capita.
Common school dists.	\$149,472.90	\$2.861
H. S. districts	151,853.29	2.907
Reclamation districts	294,744.10	5.643
Other districts	None	None
Total	\$654,707.89	\$12.535

In following articles included in this series, Tax Payers' Association of California will present some detailed facts about county expenditures.

CANNING AND DRYING

By W. V. Cruess, University of Calif.

Salting Vegetables

Certain vegetables are readily preserved in a palatable condition by the addition of salt. String beans, cabbage, cauliflower, asparagus and artichokes may be satisfactorily preserved in the following way, as recommended by the University of California College of Agriculture.

String Beans

String the beans and break into suitable lengths for cooking. Weigh the beans accurately and for every three pounds of beans, weigh out one pound of salt. Mix the beans and salt in alternate layers in a crock or wooden bucket or wooden barrel. Do not use metal containers. Place a wooden weight or a stone or brick on top of the salted vegetables and set away in a cool place. The salt and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine which preserves the vegetables.

Artichokes, Asparagus, Cauliflower

Prepare a saturated brine solution consisting of 3½ to 4 pounds of salt to the gallon of water. Place this in

taste, flavored with patriotism. "Shoot the pickets" meaning, of course, the tough old hens and the virginal pullets that have been cackling about the White House.

Goodby, Peter

Peter B. Kyne has a commission in the army. He fought before, and he will fight again. Remember how the could troops fought? Well, they never had anything on Peter. The whole country will hope for his safe return, with plenty of fingers to make the typewriter perform with the facile grace he has trained into it.

REGULARS ENLISTED NOW TOTAL 202,061

WASHINGTON, Aug. 31.—The regular army enlisted 565 men Wednesday, it has been reported.

Most of the recruiting was in about a dozen states, each of which has filed its volunteer quota. These included Pennsylvania, 90; New York, 63; Illinois, 57. The other states ranged below 20.

Wednesday's enlistments bring the total since April 1 to 202,061.

RIVERSIDE TO GREET RECRUITS ON TUESDAY

RIVERSIDE, Aug. 31.—Arrangements are being made for a county-wide gathering to be held at Fairmount Park in this city next Tuesday, September 4, the day before the first increment leaves for American Lake, in honor of the Liberty soldiers who have been called to make up Riverside county's quota of the first army.

The entertainment is in the hands of a strong committee headed by Dr. Benjamin S. Haywood of local Board No. 1. Each of the selected soldiers will be given a distinctive arm band, and all the city's best will be free to them—soda fountains, moving picture theaters, baths—even the barbers have offered their small tribute in the proffer of free shaves and haircuts.

The dinner at the park will be provided by the D. A. R. and W. R. C. in costume. The municipal band will be in attendance, and the oration of the day will be delivered by Superior Judge Hugh H. Craig, who is coming home from Oceanside.

Bedtime Story

A Letter to a King

[Adapted from Grimm's Fairy Tales.]

JACK and Evelyn picked a little path full of raspberries, and after supper daddy told them a story. "Once upon a time Luck's child found himself in a robbers' den at nightfall. He was on his way to the queen with a letter from the king. This letter asked for his killing, because the king had heard that the fairies had planned for Luck's child to marry the king's daughter.

"Of course this displeased the king, and he tried to get rid of the boy. When the old woman who lived with the robbers told Luck's child where he was he said: 'I am so tired that I can go no farther tonight. I must take my chances with these robbers then.' "So he put the king's letter to the queen down on the table, stretched himself out upon a bench and soon fell fast asleep.

"When the robbers came home and saw him they asked the old woman

who the strange lad was. 'A boy that I gave shelter to for charity's sake,' she answered. 'He has a letter to carry to the queen and has lost his way.' "The robbers took up the letter, opened it and read the orders which were in it to kill the bearer. Then the robber leader got very angry at the king's trick. So he tore up the letter and wrote a fresh one, begging the queen as soon as the young man reached her to marry him at once to the princess.

"Meanwhile the robbers let the boy sleep on till morning broke. Then they showed him the right road to the king's palace.

"As soon as the queen had read the letter she made everything ready for the wedding. The young man was very handsome, and the queen was very dutiful to the king. So the young princess willingly took the lad for her husband.

"After awhile the king came home. He saw that in spite of his cunning and all the artful tricks he had practiced since the lad was a baby, the boy had married his daughter. And he asked eagerly how this had happened and what the orders were which he had given.

"My dear husband," said the queen, "here is your own letter. Read it yourself."

"The king took the letter and read it. He saw that an exchange had been made, and he asked his son-in-law what became of the letter that had been given him to carry to the queen.

"I know nothing of it," said the young man. "If it is not the one you gave me to deliver that must have been taken away from me at night while I slept."

COUNCIL FOR DEFENSE

Prominent Workers National Council Talked to Local Workers Wednesday

Mrs. Myra Kingman Miller and Mrs. Lillian Spangnagel of Long Beach were visitors in Santa Ana Tuesday in connection with their work in the Council for Defense. The two women were guests of the local board at a luncheon at the Cherry Blossom, where covers were laid for Mesdames A. J. Lawton, J. F. Perry, W. L. Deimling, D. Eymann Huff, I. D. Mills, Lloyd Grubb, William Marsh, F. J. Rogers and J. Dick Wilson. At a well-attended meeting in the Presbyterian Church in the afternoon Mrs. Miller and Mrs. Spangnagel both spoke.

Mrs. Miller is a director in the Bureau for Women's Service at Washington, D. C., and has recently completed a tour of the eastern states in connection with her work. A trip through the local canneries and the woolen mill resulted in the heartiest commendation of the manner in which they are run. The two canneries were said to be models of cleanliness and sanitation.

Most of Mrs. Miller's work is in connection with factories where government contracts for clothing are being filled. All the women in the large manufacturing cities are registered for service, and the cities districts. In one city where 80 extra women were needed and there were inadequate housing facilities, the wealthy women opened their homes for that purpose. In another place where a garment factory with large government contracts was unable to obtain either women or machines, the garments were taken in to private homes and made under expert supervision, and the contract fulfilled two weeks ahead of time. These instances were cited as proof of the opportunity open to women to be of genuine service, and the need that exists for their service and for organization to facilitate that service.

Mrs. Spangnagel's work consists largely of bringing worker and work together. In her visit to the local woolen mill, she was informed that twelve more experienced men are needed and, she will do her share to find these men. Through her efforts, in connection with the Chambers of Commerce, over 800 men and women have been placed in the canneries at San Pedro and Long Beach.

At the Country Club
One of the enjoyable Saturday afternoon card parties will be given at the Country Club tomorrow afternoon, with Mrs. Maurice Yarnell and Mrs. M. R. Scott as hostesses. It is hoped that a large number of club members and their friends will attend.

WEDDING ANNIVERSARY

Friends Surprise Mrs. N. A. Holderman On Eighth Anniversary

Since Captain N. M. Holderman is "Somewhere in California" busy in his country's service, Mrs. Holderman's friends decided that she should not be permitted to spend a lonely wedding anniversary, so they gave her a very pleasant surprise by appearing at her home yesterday afternoon, bringing their needlework and some very delectable refreshments with them. Blue and white asters and white begonias were also brought, and their fragrance and beauty were greatly enjoyed. The afternoon hours sped happily by over fancy work and visiting, and Captain Holderman will be informed that his eighth wedding anniversary was very appropriately celebrated, even though he was not so fortunate as to share it. The guests included Mrs. C. I. Talbot of El Centro, Earl Halderman of Flagstaff, Ariz., Pearl Higley of Harper, and Mesdames J. C. Lamb, Roy Smith, Salvatore Padias, Grant Holderman and Lydia Cooker.

—O—
T. F. B. Lodge
Last evening the Fraternal Brotherhood Lodge calendar adopted a few weeks ago proved its worth by over seventy members coming out to attend the meeting. There was a class of candidates initiated and several applications elected to membership that will be initiated next meeting. An auto load of visitors were present from Riverside lodge, they having a desire to see for themselves how well the Ford race contest was succeeding in Santa Ana, and they were shown that Santa Ana is a lodge that does things, and is in the race to win the Ford.

After the business meeting General George S. Adolph, of Los Angeles, held the close attention of his audience while he gave with wonderfully dramatic power, that splendid story of "The Horse Trade" from David Harum.

A pleasing vocal solo was given by Mr. George Wells, accompanied by Mrs. Floyd Turner on the piano.

Mr. Floyd Turner, president of the lodge, will, it is expected with several other members of this lodge that have been drafted into their country's service, before another week start for American Lake training camp in Washington. A small token of remembrance from the lodge was presented to Brother Turner with words of appreciation of his past efforts in behalf of his lodge, and with the expressed hope that the world would soon be won over to the principles of democracy and world peace, that he with all the rest following the flag would return in health and strength to his family and friends.

Refreshments of coffee and cake were served followed by dancing and games.

CHERRY BLOSSOM

FOR VISITORS

Miss Fuller Hostess at Pink Luncheon For Out of Town Guests

Miss Gertrude Fuller was hostess yesterday at a charming one o'clock luncheon at her home on Bush street, complementing several out-of-town guests. A beautiful centerpiece of pink carnations and maidenhair fern graced the table, where covers were laid for sixteen. In the afternoon, when the gay fancy work bags were opened, instead of the usual dainty stitching such frivolous bags were wont to contain, in more peaceful days, it developed that they held very practical bits of Red Cross knitting or sewing. The soldier lads across the seas must feel gratified to know that they are so often in the minds of the "girls at home."

Some very delightful music was enjoyed. Those who shared Miss Fuller's charming hospitality, beside her mother, were Misses Marie Briggs, Helen Carden, Elsie Wingood, Mary Jo Grubb, Gladys Burns, Mrs. A. A. Avery and daughter Helen of Los Angeles, Miss Dorothy Bennett of Lodi, Miss Dorothy Tull of San Diego, Miss Marie Branger of Downey, Miss Beatrice Stiles of Long Beach, Mrs. Brueckner and Miss Smith of Whittier.

—O—
Altar Society Meets
Mrs. M. Kramer, and Mrs. Jack Millings of Orange were hostesses yesterday afternoon to the Altar Society of St. Joseph's Catholic Church at the home of Mrs. Kramer on Minter street. Beautiful pink gladioli and La France roses were used to deck the rooms. The afternoon was spent with fancy work for the church. Plans were made for a cooked food sale to be held two weeks from Saturday, September 15th. Late in the afternoon some delicious home-made cake and ice cream were served, the hostesses being assisted by Misses Clara Kramer and Mary Maag. The society will hold its next meeting in Orange at the home of Mrs. J. A. Maag.

—O—
Return From Yosemite
Mr. and Mrs. Clarence Y. Martin returned last evening from a delightful three weeks' camping trip, most of which was spent in beautiful Yosemite Valley. They went by the valley road and came home by the coast road. Considerable warm weather and some roads that are not at all a paradise for motorists were encountered, but the trip was a thoroughly enjoyable one.

—O—
Were Married Here
Riverside Press: Announcement has been received by Riverside friends of the marriage in Santa Ana on Monday of Carl H. Williams, a former Riverside, and Miss Ellen Margaret Corlett of Colton. The knot was tied by Judge Cox, immediately after which the young couple left for Los Angeles.

The young bride, a California native daughter, is a girl of charming personality and an unusually striking type of attractiveness. For two years she attended the Colton high school, entering when the family went to Colton three years ago from Roseville. Williams is the son of Mr. and Mrs. J. Holt Williams, and grew up in this city. He is at present employed as chemist in the Colton plant of the California Portland Cement Company.

Lemons Beautify!
Make Quarter Pint of Lotion, Cheap
Here is told how to prepare an inexpensive lemon lotion which can be used to bring back to any skin the sweet freshness, softness, whiteness and beauty.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quarter pint of the most remarkable lemon skin beautifier at about half the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon pulp through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoothen and beautifier. Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands, and see for yourself—Adv.

STETSON

The New Stetsons for
Red-blooded Young Americans

You've a hat here that's the very spirit of Fall—smart and up-standing, in keeping with the times.

Well shaped crown, slightly tapered; brim with a slight roll; turned-over edge; 2 inch band with close reefed bow.

We are glad to get hats like this to-day.

Wear this stylish soft felt and have a Stetson derby for a change—and for the many occasions when only a derby is right.

YOU'RE INVITED to get acquainted with these fine style leaders. Try on, ask questions. Come and see first, then buy when you get ready.

The feature Stetson this season is the Stetsonian—a soft, lightweight in the charming colors of green, brown, etc.

The price is \$5.00.

Vandermaast & Son

STORE will be CLOSED all day MONDAY (Labor Day) but will be open SATURDAY NIGHT UNTIL 10:30 P. M.

Kansas Picnic at Orange County Park
The Kansas Society of Orange County will hold its annual picnic at Orange County Park on Wednesday, September 5. There will be a program of music and speaking from 11 to 12; sports and visiting in the afternoon. All Kansans and friends are invited. M. S. Cloyes is president, and W. W. Simon, secretary, of the society.

—O—
Plummer-Deakins
Miss Grace Mary Plummer, daughter of Mr. and Mrs. Ephraim Plummer of 606 West Second street, was married in Los Angeles yesterday to Grover C. Deakins of Anaheim. After a short honeymoon at the southern beaches, the young couple will make their home in Fresno.

—O—
City Playgrounds Close
The City P. T. A. announces that Saturday afternoon, September 1st, will mark the close of the season for the playgrounds at the High School. The one at Lincoln School was closed on August 15. The P. T. A. members are very much gratified at the support the movement received, and the large attendance was proof of the playgrounds' popularity. A fuller report of the summer's work will be published soon.

—O—
Notice to Red Cross Knitters
In the absence of Mrs. W. E. Winslow, who, with Mr. Winslow, leaves tomorrow for a two-weeks' outing at Lake Tahoe, yarn for Red Cross knitting will be at the home of Mrs. C. A. Gustin at 816 North Main. Instructions and advice or help in knitting will also be given by Mrs. Gustin.

—O—
Birthday Dinner
Mr. and Mrs. Lincoln J. Carden entertained last night with a pleasant family dinner party, honoring the birthday of Jabe S. Hill.

MORE IMPROVEMENTS
AT LEIPSIC'S STORE

Continued improvement is the order at the big Leipsic store of Sycamore street. Only a short time ago Leipsic added eight big ventilators in his store to make the room as airy and pleasant for his employees and customers, as possible.

Now he continues his improvements with a handsome display window. He has had the old center window removed and has had built in its place a low glass case, allowing better ventilation and light for the store. This case makes a very marked improvement in the display of goods. It is low, and easily seen, so that those passing get a fine view of the goods arranged there.

Leipsic is always on the job. He seems never to sleep, and is untiring in his efforts to make his store one of the most attractive and ideal places in the city in which to trade.

BLAZE IN PULP DRIER
DISCOVERED IN TIME

A small blaze starting in the pulp drier at the factory of the Southern California Sugar Company on South Main street yesterday afternoon was discovered in time to prevent a serious fire. The blaze originated from the vent pipe in the drier and would have done serious damage had it gotten under headway. The flames were quenched in an instant by workmen at the plant.

M. & M. NOTICE
The M. & M. recommends that the business houses close for Labor Day, Monday, Sept. 3rd.
J. C. METZGAR, Sec'y.

Lost, from Wells-Fargo Express wagon, Wednesday, Aug. 29, at Fourth and Bush, package containing six shirt waists, from Smart Shop, Santa Ana, to Sherran Co., New York. Finder please return to Wells-Fargo office and receive liberal reward.

ANAHEIM LOVER CALLS
ON SWEETHEART HERE;
OFFICERS SWIPE AUTO

F. Yoen of Anaheim has a sweetheart in Santa Ana. Last night was his visiting night. And while he and his sweetheart were discussing the weather and other entertaining subjects, officers from the sheriff's office "swiped" his machine and took it to the county garage, where it was recovered this afternoon.

He reported his loss to the city police officers last night. It developed today that Yoen had left his machine standing on Seventeenth street just west of Main. Some one telephoned to the sheriff's office that the car had been abandoned and officers were at once sent to bring it in. Whether the party telephoning did it with the intention of playing a trick on the Anaheim swain or whether he was sincere in his belief that the car had been abandoned are points that are not clear to the members of the sheriff's force. They incline to the former.

AT THE COURTHOUSE
LIGHT DISTRICT
IS SET ASIDE
BY DECISION

Failure to Take Evidence
Technically Knocks Out
Proceedings

By a decision rendered by Judge Thomas this morning the formation of the La Habra Lighting District was set aside. When the Board of Supervisors received a petition for the formation of the district opposition developed from property owners who did not want their properties included in the proposed district. However, the district was formed as originally petitioned for. W. L. York brought action to break the district. He was successful. The law requires that "evidence be taken" to establish the fact that a certain number of the petitioners are residents of the proposed district. The record did not show that anyone was sworn and testified upon that point.

The La Habra people who favor a lighting district expect to start a new petition.

Trials Are Set

Trials set today are: People vs. Transue, October 10; Baker vs. P. E., January 8; Coultas vs. P. E., January 8; Buhrman vs. Walls, October 22; Raphael vs. P. E., January 8.

For Administration

Mrs. Sophie Stock has petitioned for letters of administration upon the estate of her husband, William C. Stock, who was manager of the Anaheim Truck & Transfer Company, and who died on August 23. The estate is valued at \$8000. The widow and brothers and sisters of the deceased are the heirs. Williams & Rutan are attorneys for the petitioner.

Pleads Not Guilty

Leo J. Kelvin, charged with destroying property at the Anaheim city jail, pleaded not guilty, and his trial was set for September 13.

Articles Filed

Articles of incorporation were filed today by the McAleer Gun Club, which owns property in the ducklands west of Smelter. The incorporators are Owen McAleer, E. W. Sargent, J. R. Leonard, L. C. Haynes and A. S. Chase, all of Los Angeles.

Case Dismissed

Following a settlement out of court, yesterday the case of Poole against Newcomb, involving a contract for the sale of property, was dismissed.

Actions Brought

Suit for \$547.23 on account was brought by the Griffith Lumber Company against N. B. Tedford, H. G. Am's of Anaheim is attorney for the plaintiff.

J. H. Maley is plaintiff against W. D. Young to foreclose a \$2500 mortgage on lot 11, Mary Shaffer addition, Santa Ana. Clyde Bishop is attorney for Maley.

Given Sentence

Rufus Acosta was today sentenced by Judge Thomas to not less than ten years in San Quentin. He was convicted of murder in the second degree. He killed Antonio Villagomez at La Habra.

IN THE JUSTICE COURT
SELLS BOOZE TO
MEXICANS. IS
FINED \$50

Warning Given Man Not to
Pass Out Any More of Stuff
to Beet Workers

Juan Armento was ordered to pay a fine of \$50 or go to jail for fifty days for selling beer to Mexicans at Los Alamitos. Justice Cox gave him a lecture, telling him that men interested in the sugar beet industry had complained that wherever Mexicans get hold of liquor the harvesting of the sugar beets is interfered with.

Fines for August

During August Justice Cox collected \$1087 in fines for violations of the motor vehicle act and \$1333 for other violations of law. Most of the \$1333 was taken in in slot machine and punch board cases.

For Non-Support

Hazel Boehme has sworn to a complaint charging Estol L. Boehme with failure to support his minor child.

For Cutting In

R. R. Russell living west of town has sworn to a complaint charging Chas. F. Cowan with cutting in. Russell alleges that while driving a truck loaded with hay Cowan's machine cut in between him and a load of beets, crowding him off the boulevard. Russell's truck was not seriously damaged. The machine driven by Cowan was slightly wrecked.

For Cutting In

There was a near-wreck on the state highway near Culver's corner when an automobile bearing the license number 282,830, cut around a machine when another was approaching. A machine in which Mrs. Fay Cook, Mrs. R. E. Cook and Miss Mildred Swarthout were riding was forced off the road and came near upsetting. A warrant has been issued for the offender, whose name has not yet been secured.

FAREWELL TO BE GIVEN
MEN AT BAKERSFIELD

BAKERSFIELD, Aug. 31.—Certification of 200 soldiers, in addition to 1070 already recorded to the adjutant general's office by the Second California District Board, was completed here yesterday with local county divisions representations as follows: Merced, 44; Imperial, 33; Tulare, No. 2, 44; Kings, 20; Kern, No. 1, 39; Ventura, 13; and Kern, No. 2, 11.

With quick access to lists of certified soldiers, Kern county's two local divisions have secured their 5 per cent quota of thirteen men each, who will leave here within two weeks. William Cuneo, captain of the Southern Pacific Oilfields League baseball team, will be in charge of one contingent and Prof. Clarence Cullimore of Kern county high school will be in charge of the other. Citizens are preparing a farewell for the twenty-six men going to Camp Lewis from here.

FIX CALIFORNIA CROP
COTTON 90 PER CENT

WASHINGTON, Aug. 31.—The condition of the cotton crop on August 25, was 67.8 per cent of normal, compared with 70.3 on July 25 and 70.9 the ten-year average on August 25, the Agriculture Department's Crop Reporting Board estimated today.

The condition of the crop in California was higher than in any other state. The report fixed the condition there at 90.

VETERAN 84, READY TO FIGHT INSULT TO U. S. UNIFORM

Idler Worsted In Round With Man Who Has Seen Fifty Years' Service

PORTLAND, Ore., Aug. 31.—The bright glow of patriotism still shines in the dimmed eyes of Captain W. H. Hardy. His frame, warped by 84 years of active life, most of which was spent in the service of his flag, still has the spirit of youth. As during the fifty years he sailed the seven seas under the American flag, he today is willing to fight to defend it.

Attired in his natty blue sailor uniform, Captain Hardy was homeward bound from a meeting of the Spanish-American war veterans.

"Where'd ye get the fancy play suit, gran'pa?" asked an idler on a street corner.

"Earned it, son," the old man replied.

"—the uniform," said the loafer.

Without further parleying,

Hardy knocked the man cold with one swift blow. He had the fellow's companion backed up against a building when a patrolman arrived to arrest the two.

And as for Hardy he hit the unpatriotic stranger so hard he dislocated two fingers and sprained his wrist.

"But I've got some durned pleasant memories to offset the inconveniences," he observed today. Hardy is the only surviving member of the Perry Expedition.

SEAL BEACH MAKES BIG PLANS FOR LABOR DAY

SEAL BEACH, Aug. 31.—On Monday, Labor Day, the Chamber of Commerce of Seal Beach will give a fish barbecue and clam bake, for which extensive preparations are being made. Bob Mills, the famous Catalina chef, will have charge of the barbecue. Five thousand pounds of fish, 2000 clams, 2000 mussels, 5000 ears of corn and 2000 loaves of bread will enter into the bill of fare.

A varied program will fill out the day, ending with a fireworks display. A fireworks display will also be given Sunday evening, September 2.

What the Merchants
 Have to Offer You

WOMEN AT WORK BUSILY IN AID OF RED CROSS

Gatherings For Sewing and
 Cutting Start at 10 O'clock
 At Schoolhouse

The women of Tustin are reminded that Red Cross work is being done regularly every Monday at the sewing room in the school house. Those who have been away on their vacations will, no doubt, want to do their share, and they are asked to bring any old tissue paper patterns and clean rags which they may have on hand.

The women meet at 10 o'clock and those who live at some distance bring a lunch and the work is kept up all day.

There is an endless amount of sewing to be done. Not only all kinds of comforts and clean garments for the wounded soldiers, but sanitary garments for nurses and physicians are to be provided.

These garments are being sent to the front now and they are very much needed. Women all over the United States are giving their time to the work.

In order to accommodate those liv-

TIRED OUT.

There's many a housewife who sits on the porch in the growing shadows of a summer evening, knowing to the fall what it is to feel tired out; as if there was not another ounce of effort left in her.

But she knows how sound her slumber will be and how refreshed the morning will find her. That's the tiredness of a healthy woman. But it's another thing for the sick woman to feel tired out. Rest only seems to increase her suffering. Just as in profound silence a discord jars the ear more forcibly, so now that she has stopped moving about, this tired woman feels more acutely the aching back and throbbing nerves.

Sick women, thousands of them right here in California, have been made well by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, heals inflammation and ulceration.

Los Angeles, Cal.—"After being seriously ill for some time, with no relief from any doctor or their medicines, in desperation I tried Dr. Pierce's Favorite Prescription, and was soon restored to health and happiness. I also recommend the 'Lotion Tablets' to all women suffering with diseases peculiar to their sex. Long live Dr. Pierce and his never-failing remedies."

"I write this with pleasure and gratitude."—MRS. THERESA STEVENS, 232 1/2 South Grand Ave.

ing near Mitchell avenue and Red Hill, who cannot go far from home on account of little children, a circle of neighbors gather at the home of Mrs. N. Beisel on Tuesday afternoon of each week for the Red Cross work.

BIRTHDAY DINNER IS GIVEN TO RELATIVES

Clarence Bowman, son of Mr. and Mrs. Clarence Bowman, celebrated his birthday last Tuesday at their home by entertaining those he preferred above all others, his grandparents, Mr. and Mrs. W. D. Bowman, and aunts, Misses Ollie and Myrtle Bowman, at dinner.

The crowning feature of a delicious dinner was a lovely birthday cake, and the occasion was greatly enjoyed by those present.

TUSTIN FAMILIES NOW RETURN FROM SUMMER OUTINGS

Mr. and Mrs. C. E. Utt and family will return at the week end from a month's stay at Balboa. The young people have had a delightful time. Misses Dorothy and Louise Utt with Miss Hattie Stevens had a successful tramp to Laguna from Balboa. Other hikes were taken to Long Beach and other places of interest.

Mr. and Mrs. J. P. Hight and family returned last week from a summer vacation at Balboa.

Mr. and Mrs. A. E. Bennett and family expect to return very soon from a several weeks' stay at Balboa. Mr. and Mrs. Franklin Grisot and family and Mr. and Mrs. Claud Martin returned Monday from a week's stay at the beaches.

FORMER RESIDENT OF TUSTIN PASSES AWAY

Miss Lucy Etta Walker, whose funeral services were conducted by Rev. J. A. Stevenson at the Smith & Tut-till chapel on Monday was a resident of Tustin several years ago and her friends were grieved to hear of her death. She formerly purchased a cozy bungalow on A street as a home for herself and her mother, but it was later deemed expedient for her health to remove to a higher altitude. Many friends remember her gentle manner, untiring industry and other sterling qualities, and their appreciation and regrets were expressed in beautiful floral tributes at the funeral services. Two beautiful songs were sung by Mrs. Jas. S. Rice, accompanied by Mrs. S. W. Nau.

Miss Lucy Walker was a sister of Miss Catherine Walker of Tustin.

DELEGATION RETURNS FROM CAMP MEETING

The large delegation of Tustin people who attended the Advent Christian camp meeting at Huntington Beach last week, returned home at the close last Sunday. Rev. M. E. Ladiou and family remained for a vacation this week and will return home tomorrow.

If you do not get your Register delivered as you want it, notify the circulation manager of the Register at once.

FOGGY WEATHER EXCELLENT FOR THE WALNUTS

Tustin Doing Its Share In
 Conserving Food Supply
 Of the Nation

In the midst of abundant harvests of fruit, grains, beans, melons and vegetables, in the Tustin district, it is difficult to realize any shortage of food in the world; but there have been earnest efforts made to preserve the over-supply and housewives have devoted their time to the exclusion of other things.

The next harvest to be cared for is the walnuts. It is impossible to tell very accurately at this time what the outcome will be, but indications are that if the foggy mornings continue the walnuts will hull easily and that fact will figure largely in the amount of time and labor necessary to prepare them for market.

The nuts are beginning to fall and next week the pickers will be getting busy.

SPECIAL MEETING OF SECTION HELD FOR THE RED CROSS

The Tustin Household Economics Section held a special summer meeting Wednesday afternoon at the home of Mrs. E. M. Nealley for the purpose of sewing on Red Cross work. The time was devoted to work on tray cloths and napkins and other useful articles.

Those present were Mrs. E. M. Nealley, Madam Nealley, Mrs. J. E. Paul, Mrs. Hugh Plum, Mrs. S. W. Stanley, Mrs. F. T. Preble, Mrs. Chas. Bowman, Mrs. Beisel, Mrs. W. L. Leihy, and Mrs. Oscar Leihy.

PERSONALS

Mrs. H. A. Allen and son Gerald, who have been enjoying an extended trip to the east, expect to leave Canada this week on their return to California.

Misses Mildred and Blanche Ferrell returned home Sunday from attending the Seventh Day Adventists camp-meeting at Anaheim.

Mr. and Mrs. Sherman Stevens returned Monday from a trip to Catalina.

Mr. and Mrs. Byron Crawford were visitors to Los Angeles Wednesday. Rev. and Mrs. W. S. McDougall were visitors to Los Angeles on Monday. They were accompanied by Misses Grace Hight, Dorothy Jones, and Jennie Pollard. Mrs. McDougall and the younger women attended the Presbyterian meeting as delegates from the Tustin Presbyterian Missionary Societies.

Reginald Hight of Los Angeles, was a guest of Mr. and Mrs. J. P. Hight this week. Reginald returned home today and will enter his first year at

the Los Angeles high school the first of September.

Prof. Oscar Easbach of Los Angeles, was a guest of Mr. and Mrs. James Willis Rice on Tuesday and Wednesday.

Miss Grace Roberts returned home Wednesday from a nine weeks' stay at Camp Herman in the Santa Cruz mountains. She also visited San Francisco, Berkeley and other interesting places.

Miss Clara Macomber spent the day last Wednesday with friends from Oregon, who are now at Long Beach. Mr. and Mrs. L. J. Lippiat and children were visitors to Huntington Beach last Tuesday.

H. P. Christensen left Tuesday for a trip to San Diego.

Mr. and Mrs. R. E. Hall of Watts, were visitors at the H. P. Christensen home last week.

Miss L. E. White is entertaining her sister, Miss Hannah White, of Joliet, Ill. They have taken apartments in Santa Ana.

Mrs. John Dryer was a visitor at the home of her sister, Mrs. Mary Brown at Altadena last Sunday.

Mrs. Mary Kerr, who has been visiting Mrs. N. Jones, returned to her home in Los Angeles last Sunday.

Mr. and Mrs. A. N. Jones, Mr. and Mrs. A. D. Turner, Mrs. Schwab and Mrs. Mary Kerr, comprised a party enjoying an automobile trip to Balboa Beach last Saturday.

Mr. and Mrs. James Willis and daughter Erma, of Lamanda Park, spent the week-end with Mr. and Mrs. Frank Greenwood. The party had a delightful trip to Balboa on Sunday afternoon.

Mr. and Mrs. Clyde Deardorf and Mrs. Frank Thomas returned last Saturday from a week's stay in Silverado Canyon and Hidden Ranch.

Mrs. H. H. Huggins and two daughters, Misses Dorothy and Alice Huggins, of Topeka, Kansas, were guests of Mrs. I. L. Marchant last week. Miss Alice Huggins will go shortly as missionary to China. She has a sister, Miss Mabel Huggins, at Chihli, Tung Chow, China.

Mr. and Mrs. J. A. Delnoy of Long Beach, were guests of Mr. and Mrs. Ernest Crawford on Monday.

FAREWELL PARTY IS PLANNED FOR YOUNG MAN SOON TO LEAVE

The members of the Alkani class, composed of the young men and young ladies' classes of the Presbyterian Sunday School, are to have a farewell party tonight for Charles Logan, one of their number, who will leave soon for the training camp for soldiers. The party will be held at the home of Mr. and Mrs. Earl Marshall.

PRESIDIO DESERTER GETS REINSTATED

ALAMEDA, Cal., Aug. 31.—"I'm a deserter from the army. I want you to lock me up and notify the Presidio I am here waiting for them to come get me." Richard L. Grainger, aged 21, told Desk Sergeant W. O. Jacoby, walking into the Alameda police station.

"I joined the army at Camp Flagler, Oregon, and was sent to the Presidio where I have been in the cooks' and bakers' school. Two days ago I left. I'm sorry and I want to get back."

Grainger had cast aside his uniform and was clad in overalls.

The Presidio was notified and the soldier's request complied with.

MOTHER SAID TRY IT

Lydia E. Pinkham's Vegetable Compound Cured
 Mrs. Copner after
 Doctor's Failed.

Cincinnati, Ohio.—"I want you to know the good Lydia E. Pinkham's Vegetable Compound has done for me. I was in such bad health from female troubles that I could hardly get off my bed. I had been doctoring for a long time and my mother said, 'I want you to try Lydia E. Pinkham's Vegetable Compound.' So I did, and it has certainly made me a well woman. I am able to do my house work and am so happy as I never expected to go around the way I do again, and I want others to know what Lydia E. Pinkham's Vegetable Compound has done for me."

—MRS. JOSIE COPNER, 1608 Harrison Ave., Fairmount, Cincinnati, Ohio.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from choice roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

FOOTBALL STAR IS ALSO 'SAUSAGE SPECIALIST'

French Aviator Has Record
 of Five Airplanes and
 Five War Balloons

WITH THE FRENCH ARMIES, Aug. 8 (by mail).—Sergeant Boyau, former Rugby football player and champion of France, who has just attained the rank of an "ace" by bringing down his fifth German airplane, has the added distinction of being the foremost "sausage specialist" of the French aviation service.

Boyau has the same number of "sausages," or German observation balloons, to his credit, as he has aeroplanes.

To the superficial observer, the winging of a huge, stationary and defenseless "sausage" would appear like a simple task in comparison with that of triumphing over a fast-flying aeroplane, armed with machine guns and manned by a daring aviator full of fight. In reality the "sausage" is the bigger and harder game of the two.

In the first place, "sausages" are only sent up miles behind the enemy's lines. Any attack against them means a long flight into enemy territory and a battle above the enemy's lines. "Sausages" only mount to an altitude of several hundred feet, and the attack must therefore take place within close range of all the enemy's anti-aircraft batteries that constitute the principal defense of an observation balloon.

Anchor Lines Invisible
 The "sausages" again are attached to the earth by thin wire cables that are invisible to the attacking aviator. If he flies into one of these aerial smashups of the most dangerous type occurs.

The efficacy of these cables in keeping off aviators is demonstrated by the fact that one of the principal aerial defenses of the Krupp factories at Essen consists precisely of a large number of unoccupied "sausages" flown at a great height so that aviators seeking to bomb the Krupps are almost certain to fly into one of the steel anchoring cables.

Boyau, who now has five "sausages" to his credit, only succeeded in getting into the aviation service during the latter part of 1915 after two years in the trenches. During December of last year he distinguished himself by a number of daring attacks over Verdun but only succeeded in bringing down his first Boche in March of this year.

A few days later he successfully bombed some hangars far behind the German lines. It was on this trip that Boyau conceived a method for attacking "sausages" and at once planned his career as a "sausage specialist."

He successfully destroyed the first one he attacked, the balloon dropping in flames, and then headed immediately for a second one. This he missed but the "sausage" observer was so badly frightened that he leaped from the observation car in his parachute.

On June 3 he brought down another "sausage." During the attack his motor went wrong and he was obliged to alight in the enemy's lines for repairs. The repairs were effected under the full fire of all the anti-aircraft machine guns in the vicinity. Boyau retaking the air and crossing back into the French lines at an altitude of only 400 feet under a terrific German bombardment. He received the Medaille Militaire for this.

June 24 witnessed the death of another "sausage" but in returning from the funeral, Boyau found himself in the midst of five Boche airplanes. He brought down one, succeeded in disengaging another French airplane that had been surrounded by Boches and got safely back to the French lines.

Boyau brought down his fifth airplane over Nancy on July 13, after still more successful "sausage" attacks.

He is one of a whole series of French sport champions including Carpentier, Decoin, the Olympic swimmer, and Lapize, the cyclist, who have made wonderful records in French aviation.

'SUBMARINE BAND' SOMETHING NEW IN U. S. NAVY CIRCLES

SAN PEDRO, Cal., Aug. 31.—America again has given the world something new—the "Submarine Band." It made its first appearance here this week at the formal dedication of the Navy Y. M. C. A. at the San Pedro navy training station. And it made a hit as well as an appearance.

The band is composed of members of submarine crews operating in Pacific waters. When they want to practice they go down into the depths and where no ears can hear them, run their scales and take their lessons, undisturbed.

A few days ago it was announced that the submarine band had reached proficiency—was ready to come to the surface and the Y. M. C. A. wasn't long in giving an opportunity for it to make its first public appearance.

BELGIAN AVIATOR THOUGHT DEAD CONTINUES FIGHT

Was Brought Down Five
Times and Reported Killed
On Each Occasion

BY HENRY WOOD
(United Press Staff Correspondent)
PARIS, Aug. 31.—(By Mail.)—Adjutant Edmond Thieffry, a Belgian aviator who has just distinguished himself by bringing down two German machines in the same combat, has another distinction of which today he is the sole possessor in the entire aviation world.

In the course of desperate aerial fights Thieffry has himself been brought down no less than five times by his adversary, and has figured in the German official account of these combats as having been killed. No other aviator has ever survived an equal number of defeats.

Thieffry's career is one of the aviation romances of the war. With the German invasion of Belgium, Thieffry was first mobilized as a motorcycle messenger on the staff of General Leeman. He was made prisoner, succeeded later in escaping into Holland, where he was interned, but from where he again succeeded in eluding his guards and making his way into the Belgian lines.

In July, 1915, he entered the aviation service and for a year and a half went through all the more important raids of the Belgian bombarding squadrons.

By December, 1916, he won promotion into a fighting squadron and during the first six months of 1917 established for himself a record almost without equal. On January 24 he flew over Brussels arousing the most intense enthusiasm on the part of the Belgian population still remaining there. He descended to within 75 feet of the city's streets and dropped leaflets assuring his compatriots of their ultimate deliverance.

On March 25 he brought down his

first enemy machine. The second followed just eight days later for which he received a citation and the Croix de Guerra.

On July 3 came his double exploit. He was returning from a reconnaissance over the German lines, when he suddenly found himself confronted with fourteen German machines. Flying straight into the center of the German squadron Thieffry picked his man and downed him. Picking a second, he downed him in less than two minutes. With two machines taken out of the center of the German squadron a "hole" was created big enough for Thieffry to fly through their barrage, the remaining twelve Germans refusing even to chase him.

The fact that Thieffry has been downed five times by enemy machines demonstrates his qualities as an aviator rather than his lack of them. Each time he has been "downed" he has been engaged in the closest, deadliest combat with his adversary in which the latter merely happened to get the advantage, the "drop" as it were, that must come to every aviator once in a while.

KILL 'RED SPIDER' PLEAD BEAN GROWERS

BERKELEY, Cal., Aug. 31.—Demolish the "red spider."

That's the call to farmers—particularly to bean growers—issued today by the University of California. But just a moment. Don't step on that spider because it's red—for a red spider of the kind which should be eliminated isn't a spider at all. That's just a name for it. In reality it is a mite and it isn't even red—it's yellowish green, the University men say. But masquerading under any name it pleases, it can do untold harm to the bean crops. The bug itself is hardly visible, it's so small, but a fine web on the underside of a bean leaf marks its presence. Sulphur is recommended as the most unhealthy diet for this pest—but it should be applied with care; dust onto the underside of the leaf when the temperature is between 70 and 100 degrees, in order to be effective and still not injure the plant.

Did the Best He Could
She (during the spat)—You should have married some stupid, credulous girl. He—Well, my dear, I did the best I could.—Boston Transcript.

RIVER DISTRICT MEETING WILL BE HELD TONIGHT

Advocates of Storm Water
Protection Will Tell of
Advantages

FULLERTON, Aug. 31.—At the Commonwealth school house, six miles southeast of Fullerton, at 8 o'clock tonight, a meeting will be held to discuss the interests of the storm water protection district.

This meeting is called by those who favor the issue of bonds to protect the district from the flood waters of the Santa Ana river, and there will be speakers present to point out the advantages to be gained. Also the purposes of the district.

On the 28th of September an election is to be held to elect three trustees to transact the business of the district, and the boosters for the proposed improvements have nominated as trustees to be elected at the time the following: Charles Eygabroad, Anaheim; G. C. Collins, Yorba; H. L. McCellan, Placentia road.

Quite a number of Fullerton people are interested financially in the district and they are urged to be present at tonight's meeting.

Old Revolver
Jacob Yaeger, while looking through an old box found an old revolver which he purchased from Charles Minhart in Los Angeles in 1897. Minhart was then engaged in business on Aliso street.

Engraved on the revolver are the words, "Address Col. Samuel Colt, New York."

Yaeger says Colt was a colonel in the army during the Civil war but just how Col. Colt's private revolver found its way to Los Angeles he is unable to tell.

The revolver was one of the finest made in those days of the old cap, powder and bullet pistols. The cylinder is artistically engraved and the pistol looks almost new today.

WINTERSBURG MONTHLY SOCIAL OF WINTERSBURG EPWORTH LEAGUE

WINTERSBURG, Aug. 31.—The monthly Epworth League social and business meeting was held Tuesday night at W. F. Slater's. Indoor games were enjoyed during the early part of the evening and after a short business session, the company gathered around a bonfire outside and roasted weiners and ate buns and pickles. Those present were Misses Ethel Dwyer, Jennie Clay, Ina Clemens, Myrtle Culver, Ethel Isenor, Frances Blaylock, Ethelene Culver, Vivian Cady, Juanita Isenor, Lorena Culver, Ethel Gothard, Agnes Gothard, Mrs. C. Clemens, Messrs. H. O. Ensign, James Madoux, Louis Madoux, John Clemens, Andy Magaouson, Mr. and Mrs. W. F. Slater, Rev. and Mrs. O. N. Oleson.

Mrs. G. M. Roberson entertained a few friends Wednesday in honor of Mrs. Kate Frenger. The guests were invited to come at 12 o'clock, and found a delicious chicken dinner awaiting them. Everything on the table was home made and almost every article of food was grown on the Roberson twenty acres, as well as the beautiful roses that formed the centerpiece. Those present to enjoy the day in this hospitable home were Dr. and Mrs. S. G. Huff, Mrs. N. E. Dwyer, Miss Ethel Dwyer, Rev. and Mrs. O. N. Oleson, the guest of honor, Mrs. Franger, and the host and hostess.

Mrs. John Franz of Hynes came Wednesday to visit her daughter, Mrs. W. H. Phillips, for a couple of days. This is her first visit to Wintersburg since the Phillips family became residents here. Mrs. Ed Reuther and two daughters spent the day Wednesday with Mrs. Phillips and Mrs. Franz.

Rey Shaffer rode in on his Indian motorcycle Wednesday night to spend a few hours at home. The cavalry men have been moved from Arcadia to San Diego, making the change on Monday.

Kenneth Ufford and wife were here on Tuesday and took dinner with Mrs. N. E. Dwyer. He has a position as cabinet maker in the ship yards at San Pedro and is planning to live in Long Beach.

Miss Ruby Cleaver left Wednesday morning for Milford, Ill., where she is to begin school September 3. Miss Cleaver had almost decided to remain in California this year, but was given an increase in salary and urged to return for one more year. She is a very successful teacher, the kind that is hard to get, and is principal of her building. She was accompanied to the city by her brother, Oscar Cleaver.

Mrs. B. A. Farrar is bereaved in the death of her brother, Edward Swanson, of Jackson, Ohio, who passed away after an illness of four weeks.

George McDonald, who has been at home with his mother for two weeks, left Wednesday for a short vacation before beginning his school teaching on September 10.

J. L. Farrar and wife and their daughter, Miss Ethel Farrar, motored

up from Riverside Tuesday and spent the day at B. A. Farrar's.

Mr. and Mrs. Ernest Dye of Tulare, who have been spending a month or so at Long Beach, visited their relatives, A. J. Young and family, this week, on their way home.

Margaret Gardner is spending the week with her grand parents, Mr. and Mrs. J. D. Slatt, her sister Bessie having visited them last week.

Mr. and Mrs. E. Pratt of Los Angeles and a friend of theirs were guests of Mr. and Mrs. E. Ray Moore Sunday.

Henry Winters, James Roberson, Wallace and Walter Winters have a hunting and fishing trip planned for the week end.

Miss Della Young, who has a class of piano pupils in Pasadena, returns to her work tomorrow after a month's vacation at home.

Mr. and Mrs. Frank Baldwin of Los Angeles were guests Sunday of Mr. and Mrs. B. A. Farrar.

Church Notice
Sunday school at 10 a. m.; Mrs. A. H. Moore, superintendent; sermon by the pastor at 11 o'clock. Subject, "Approved Workmen." Epworth League at 6:45, subject, "Has Summer Playing Brought Leanness to Your Soul?" Leader, Miss Mary Crane. Evening sermon at 7:30, subject, "The Spirit of Discontent."

ACCUSE GERMAN SOLDIERS OF GRAFT PLOT

BY HENRY WOOD
(United Press Staff Correspondent)
WIT THE FRENCH ARMIES, July 20.—(By Mail.)—A veritable scandal in the German army is revealed in official documents taken from recently captured prisoners, showing that the occasional munition crises and shortages from which Germany is known to suffer, are in part due to the munitions wasted and stolen and demonstrating the seriousness of the metal shortage which Germany is at all times facing.

In order that not a single ounce of metal be wasted premiums were offered by the minister of war to the soldiers for returning all used cartridges, shells, and bits of metal with which every battlefield is covered.

The premiums offered were so attractive that the soldiers hit upon the idea of taking the shells, cartridges, and munitions served them, mutilating or otherwise destroying them and then returning the broken bits as so much metal picked up in the trenches and on the battlefields.

Details of Scandal
Full details of the graft and scandal are contained in an official circular of the German minister of war, which reads as follows:

It has come to the knowledge of the ministry of war that on many occasions the military authorities charged with the supplying of munitions have not delivered integrally to the respective units the quantities received at the shipping depot, but have had recourse to various expedients in order to assure for themselves the premium offered for the salvage of munitions.

"(a) Cases of cartridge have been broken open, the balls torn out, the powder burned and the empty cartridges returned as having been found and turned by the troops.

"(b) The bands about certain projectiles, that were perfectly usable, have been torn off, the fuses unscrewed, the shell thrown away, and the copper bands and fuses returned as having been found by the troops.

"(c) Other projectiles thoroughly intact have been thrown away in order to permit accomplices to find them and return them for the recompense given for the salvage of munitions.

"Copies of this circular furnished to troops at the front must be destroyed immediately after being read."

Because this last paragraph was not obeyed a number of these circulars have come into the hands of the French military authorities from prisoners.

ENLISTED MEN HAVE CHANCE TO ADVANCE

WASHINGTON, Aug. 30.—Here's encouragement for conscriptable youths who have not been drafted yet, who have failed to get into officers' reserve training camps and who still want to go to the front as officers.

Enlist in the regular army. If you show that you are officer material, you'll get your commission. A case in point:

An anxious father wrote to Washington to get the release from the regular army of his son, who ran away and enlisted about nine months before, so he could go to an officers' reserve training camp.

"Not much," came back the answer from the commander of the company in which the son was serving. "The training camp won't get this young man. I saw him first. He made good. He's now a noncommissioned officer. I have recommended him for a commission in the regular army."

"I assure you he will pass the examination and he will probably hold his commission and be in France before the class now at the training camps have even graduated into the officers' reserve."

This is but one of the 5,000 commissions which will be issued to non-commissioned officers who rose from privates in the regular army, within the next four to six months.

Upon the recommendation of the General Staff, the "top sergeants" some of whom have done duty under two generations of commissioned West Pointers, and who had resigned themselves to non-commissioned lives, are going to be given their chances in this war as commissioned officers.

GOOD GRUB IN CAMPS; SEE MENU BELOW

Recruits Will Have Plenty of
the Best Kind of Food
At All Times

BY GEORGE MARTIN
(United Press Staff Correspondent)

WASHINGTON, Aug. 30.—Having outlined in the two foregoing stories some of the less pleasant features you may encounter at your cantonment camp dining hall this fall, here goes for some pleasant news.

No hardtack or embalmed beef for you.

You'll get the best of everything and plenty of it three times a day.

To prove it, here's the sample ten day menu to be used as a general guide in the preparation of your meals at the training camps. It will be varied from this according to the fresh fruits and vegetables available in the particular part of the country your camp is located.

First Day (Sunday)—Breakfast:—Cantaloupes, 1/2 each; oatmeal, sugar, milk, fried pork sausage, hot biscuits, coffee. Dinner—Fresh vegetable soup, croutons (dried bread toasted), veal a la creole, boiled rice, string beans (fresh), lettuce salad, ice cream, cake, bread, ice water. Supper—(cold) potato salad, bread, jam, iced tea.

Second Day—Breakfast:—Corn Flakes, sugar, milk, beef stew, boiled potatoes, toast, bread, coffee. Dinner—Boiled beef with dumplings, spinach, young beets, pickles, apple and peach pie, iced tea, bread. Supper—Beefsteak, breaded; scalloped potatoes, hot Parker House rolls, iced tea.

Third Day—Breakfast:—Stewed prunes, oatmeal sugar and milk, hamburger steak, baked potatoes, bread, toast, coffee. Dinner—Rice and tomato soup, croutons, boiled bacon and cabbage, macaroni with cheese, lettuce and radishes or young onions, Brown Betty with raisins or currants, caramel sauce; hot corn bread, iced tea. Supper—Hot rolls, butter, jam, iced tea.

Fourth Day—Breakfast—Cantaloupes, Corn Flakes, sugar and milk, fried liver and bacon, fried onions, toast, bread, coffee. Dinner—Beef a la mode, boiled potatoes, creamed cauliflower, pickles, tapioca pudding, vanilla sauce; iced tea, bread. Supper—Chili con carne, hot biscuits, stewed peaches, iced tea.

Fifth Day—Breakfast:—Milk toast, fresh apple sauce, beefsteak and onions, baked potatoes, bread coffee. Dinner—Cream of potato soup, croutons, beef pot pie, boiled potatoes, boiled beets, lettuce salad, cottage pudding, chocolate sauce; iced tea, bread. Supper—Fried ham, hot Parker House rolls, apple sauce, iced tea.

Sixth Day—Breakfast:—Oatmeal, sugar and milk, fried pork sausage, lyonnaise potatoes, bread, toast, coffee. Dinner—Vegetable soup, croutons, soft roast beef, mashed potatoes, stewed corn, piccalilli, lemon ice, spiced cake, bread, ice water. Supper—Hot tea buns, jam, butter iced tea.

Seventh Day—Breakfast—Bananas, Corn Flakes, sugar and milk, beef stew, baked potatoes, toast, bread coffee. Dinner—Roast ribs of beef, browned potatoes, spaghetti, Italian style; pickles, apple dumplings, plain sauce; bread, ice water. Supper—Veal cutlets, breaded; hot biscuits, jelly or jam, iced tea.

Eighth Day—Breakfast:—Cantaloupes, oatmeal, sugar and milk, hot cakes, butter, syrup, coffee. Dinner—Fresh vegetable soup, croutons; ricasso of chicken, green peas, creamed potatoes, sliced tomatoes and cucumbers, jelly cake, lemonade, bread. Supper—Cold roast beef, potato salad, bread, apple sauce, iced tea.

Ninth Day—Breakfast:—Hot milk toast, fresh rhubarb sauce, fried spare ribs, baked potatoes, toast, bread, coffee. Dinner—Boiled Vienna sausage and cabbage, boiled potatoes, hot corn bread, piccalilli, plum duff, caramel sauce; iced tea. Supper—Scrambled brains, Jenny Lind, apple or peach sauce; iced tea.

Tenth Day—Breakfast:—Bananas, one each; oatmeal, sugar and milk, beef hash, lyonnaise potatoes, toast, bread, coffee. Dinner—Baked pork and beans, spinach, piccalilli, hot corn bread, rice pudding, caramel sauce; iced tea. Supper—Cold sliced bologna sausage, French fried potatoes, pickled beets, hot rolls or buns, pumpkin pie, iced tea.

LOS ANGELES STARTS DRIVE AGAINST BOOZE

LOS ANGELES, Aug. 31.—This city launched a drive on booze yesterday with resolutions were unanimously adopted at a luncheon held at the Broadway Store Cafe calling for the elimination of the saloon in Los Angeles.

The ordinance to be prepared to fit the requirements imposed by a resolution adopted at the meeting will accomplish the following results:

Prohibit absolutely the sale of distilled liquors for drinking purposes within the city.

Close saloons and not permit them anywhere within the city.

Make the harbor district dry.

Permit, within the present downtown liquor zone, sale of vinous and malt liquors only with meals from 11 o'clock a. m. to 9 p. m. in public dining rooms of hotels, restaurants and clubs; but there can be no increase in the number of such places beyond the number now licensed.

Permit, within the present downtown liquor zone, sale of vinous and malt liquors in sealed packages from 7 o'clock a. m. till 6 p. m. of any day except public holidays; but there can be no increase in the number of places selling by the bottle beyond the number now licensed.

Prohibit soliciting orders for liquors anywhere in the city.

How \$1 Does A Better Wheel Repair Job Than \$10

A dollar's worth of Spoktite tightens 4 wheels. Mechanical tightening would cost about \$10. Spoktite keeps them tight. Mechanical tightening does not allow for swelling of the wood in dampness. Spoktite prevents swelling as well as shrinking.

SPOKTITE Swells Wood Tightens Loose Wheels

Thousands of people have used Spoktite for tightening wheels—and not one case of failure has yet been reported. Spoktite is not a glue. It is a liquid compound that penetrates the wood, swells it to its original condition of tightness—and keeps it there. Spoktite is made from a secret formula—there is no substitute—nothing else on the market with the same purpose—only one Spoktite.

Apply Without Removing Wheels

Anyone can use Spoktite. Simply squirt a small quantity into the cracks caused by the shrinkage at hubs and felloes. In an hour your wheels will be tight as when new. The handy spout can makes it easy to apply Spoktite without removing the wheels or any part of them. Get a wheel size can for \$1.00—enough for 4 wheels—and make your car safe.

Sold in Garages, Auto Supply and Hardware Stores

If your dealers do not keep Spoktite, write our factory at once and we will see that you are promptly supplied. Don't risk the dangers of loose wheels—tighten them now!

HISTORIC 'LADIES ROAD' NOW FIT FOR FIGHTING MEN ONLY

BY HENRY WOOD
(United Press Staff Correspondent)
WITH THE FRENCH ARMIES ON THE AISNE, July 25 (By Mail).—"Le Chemin des Dames," the historic "Ladies Road," is no longer a place for ladies.

It is only a place for men—men who know how to fight and die. The daily battles now raging along the Chemin des Dames equal in intensity and fierceness the historic combats of last year at Verdun.

These Chemin des Dames attacks launched on a restricted front with all the concentrated resources that Germany has left for the purpose of retaking an observatory or obliterating a salient lack none of the determination and desperation of the Verdun assaults.

No war correspondent or civilian has even set foot on "Ladies Road" since it was wrested from the Germans by the French. What takes place there can only be learned from the survivors who come back after a week's defense of the road. The story of one is the story of all—differing only in detail and not in kind. The following is one of many thousands:

"The battalions of chasseurs we were to relieve had passed an agitated period that included violent attacks by the Germans with ensuing influx and reflux.

"To reach our front lines we must cross the first and second lines of the famous Hindenburg position all of which in this locality has been captured by us. Our artillery has completely demolished every bombproof and shelter of the original Hindenburg line, and for us it is a question of sleeping under the open sky and glimmering stars.

"Our officers go forward to reconnoiter the ground. As the officers talk together a Boche marmite falls. A lieutenant is killed and another wounded. A little farther along, a rifle grenade mortally wounds another officer.

"We take possession of our sector and work hard to render it impregnable to a surprise attack. The Boches are only 50 yards away. At 3:30 in the morning they attack.

"From our front line we can see their infantry. They are so close to their own barrage that at one moment they are obliged to fall back to keep from being massacred by their own shells.

"We have orders to die on the spot before abandoning our line. A hand to hand combat is quickly engaged.

"The Germans succeeded in getting into our trenches. We do not have enough grenades to beat off their attacks.

"But the waves which we drive back are quickly replaced with fresh troops and hand to hand fighting continues. A lieutenant in charge of a section after driving one German assault is surrounded by a second. The lieutenant shoots three German flame throwers. He finds that the defensive grenades they are using do not have a range sufficiently long and orders his men to seize offensive grenades. The latter are still in their heavy packing cases. To open them his men use pickaxes at the risk of exploding the whole case. But they get them out and drive the German flame throwers back. At this point the enemy has now been thrown back across the Chemin des Dames.

"We find another soldier sitting on a trench with a pipe in his mouth calmly shooting down German flame throwers before a single one can get within reach of him.

"Another after valiantly beating off the Germans from in front of his shell hole only to find that still others are threatening to cut him off from the rear, comes back and indignantly asks his lieutenant at what range he must fix his rifle in order to get 'those pigs there.'

"At ten in the morning, we have the Boches back on the other side of the Chemin des Dames. In the evening we await eagerly the official communiqué. A line announces that an attack has been repulsed on the Chemin des Dames. The German communiqué next day makes even briefer reference."

"Such is the life today on the Chemin des Dames that was built for royal ladies to visit their summer homes.

Modern Weapons
General Pershing's army is to have in the beginning more than a quarter of a million each of picks and shovels. The pen has been estimated as mightier than the sword, but even the pen is out of the contest now.

SAMMIES MAKE GOOD SOLDIERS SAYS OFFICER

French Captain Is Surprised How Quick American Fighters "Catch On"

PARIS, Aug. 3 (by mail).—The military critic of the Paris daily "L'Intransigeant" gives an enthusiastic account of the American troops now training near the front. After paying an admiring tribute to "Sammy's" physical attractions, he cites a French captain, who is instructor in the American camp, as proof that "Sammy" is as good as he looks when it comes to work.

"These American boys are surprising us the way they are catching on. One feels at once that they are in dead earnest to learn all we can teach them about the methods of fighting. Every new device has an absorbing interest for them. We have only to give them a demonstration. They repeat right away with hardly a mistake."

"You see that lot over there? They are learning to dig modern trenches and the sergeant who is supervising them, handles them exactly as if they were his own 'poussins.' Another thing which strikes us about them, is their astonishing docility with regard to their French instructors. Nothing in their behavior denotes the 'saviours of France.' On the contrary, their sole idea for the moment seems to be to become disciplined pupils."

This sign of their confidence in us has touched us deeply. They are all burning with impatience to make themselves useful. Already they have taken over all the auxiliary services in this region, guarding of bridges, railroads and construction of shelters. There's nothing of the amateur about "Sammy" and he is proving it every day.

FISH PRICE TO BE REGulated BY COMMISSION EXPLAIN UNREST CONDITIONS IN SPAIN

California Takes Lead In Fixing Margin of Profit For Producer, Retailer
Dissatisfaction Said to Be Due to Favoritism In Army

SAN FRANCISCO, Aug. 31.—Establishing the nation-wide precedent of fixing the price at which any article of foodstuff may be sold to consumers and specifying the margin of profit which may be derived from the transaction by producer, middleman and retailer, State Market Director Harris Weinstock, commencing September 5, is to enforce California's new Fish Marketing act, which vests in him and the State Marketing Commission full authority to control and regulate the marketing of fish in all of its phases.

The new fish marketing law vests in the state market director authority to prescribe the price which fishermen shall receive for their catch, the price which wholesalers who buy from the fishermen shall charge retailers, and the price which retailers shall charge consumers. It also prescribes sanitary conditions under which fish shall be handled, prevents destruction of any part of the fishermen's catch in order to keep up prices, and provides that all fish remaining unsold in the fishermen's or the wholesaler's hands shall be turned over to the state market director.

Will Publish Fish Prices
In enforcing the new Fish Marketing act, California will be the first state in the Union to relegate to itself the absolute authority to decree just how much profit shall accrue to the various handlers of an article of foodstuff and because of the present agitation against high prices and for the control of foodstuffs, the workings of the new law, enacted at the last session of the State Legislature, will be watched with much interest.

As a part of the program attendant upon the enforcement of the new price-fixing law, the state market director also will fix two or more "fish days" each week, upon which an especially low price will be announced for some one variety of sea food and upon which there will be published broadcast by means of advertisements, the price which the public shall pay for the low-priced "special" variety for that day, but also for all other kinds of fish offered for sale.

Coincident with the putting into force of the provisions of the fish marketing law and co-operating with Governor Stephens and the State Council of Defense in a combined endeavor to reduce prices and conserve the Nation's meat supply, State Market Director Weinstock is to inaugurate a state-wide educational campaign which will have for its object more fish eating on the part of the public and in which it will be sought to induce all California householders to adopt two and probably three fish diet days each week. The co-operation of all hotels, restaurants, labor organizations, state institutions and women's clubs also will be sought in this move.

Bay Region Comes First
Because of the intricate details which must first be worked out before the price at which fish are to be sold to consumers at other points, especially in interior sections where transportation and refrigeration charges must be taken into consideration, the initial price-fixing to be done by State Market Director Weinstock, starting on September 5, will be confined to San Francisco, Oakland and the immediate bay region.

As rapidly as possible thereafter, it is the plan of the state market director to name deputies, establish branch offices and fix prices to be charged at such coast points as Los Angeles, San Diego and Santa Barbara. Because of the difference in the varieties of fish caught on these places it will make it necessary to fix different prices in each locality. Price fixing for interior points is to follow immediately upon the perfecting of an equitable and efficient system for coast cities and towns.

It is estimated, however, that the prices of fish will be materially reduced, not only in the larger centers of population along the sea coast but also in all interior parts of the state.

Catch to Determine Price
According to plans already worked out, the price of fish which is to prevail on the special fish-eating days is to be determined on the size of the catch by fishermen on the preceding day. Prices will be fixed the night before each semi or tri-weekly fish day and the special, low-priced fish to be featured among consumers will be of that variety of fish of which there is the most.

Any reductions in price, says Market Director Weinstock, will be more than offset by an increased market and insofar as possible it will be the policy of the market director to bring about "big sales and small profits." Equitable prices, however, will prevail and an endeavor made to make the California fishing business one of the biggest industries on the Pacific coast.

"Meat is a necessary part of the diet of every fighting man. We need a great part of our available meat supply to feed Uncle Sam's 'Go-Getters' now after the kaiser. Eat fish three times a week and 'do your bit' toward feeding our troops abroad."—State Council of Defense.

INSURANCE
(That's All)
O. M. Robbins & Son
402 N. Sycamore St.

MADRID, Aug. 2.—(By Mail).—The movement of unrest which has been making itself more and more left in Spain during the last two months, is due to three factors; the agitation in military circles, the discontent of the democratic party (which includes socialists, republicans and reformists), and the unrest of the working classes, due to the privations of the economic crisis.

The dissatisfaction in the army is due to what is held to be favoritism, certain officers receiving advancement through court influence. It is claimed by the Officers' committees that the King is aiming to form a personal party in the army on which he can rely for events. A second reason for discontent is the insufficiency of officers' pay and the need for technical re-organization in the army.

Agitation of Democrats
As important is the agitation of the democratic group, which is daily growing more dissatisfied with the government's attitude towards the belligerents and lack of firmness with regard to the Central empires. This group which comprises the various anti-constitutional parties and has been supporting the government forces what is called the "Block of the Left," is working with combined energies to give Spanish neutrality a frankly Ententeophile character. One of the ends in view is a diplomatic rupture with the Central empire, the pretext for which would be the German submarine exploits against Spanish shipping.

The third factor, the unrest in the working classes, is entirely due to the economic crisis. Sympathy for one or the other group of belligerents varies according to the different regions.

The main object of the democratic party is, to turn both the military and the proletarian movements to its own benefit, by co-ordinating them and giving them a common direction.

As regards the military malcontents, this appears quite feasible. In view of the fact that so far the army has concerned itself very little with the actual form of government. Therefore if the "Block of the Left" can persuade the dissatisfied military elements that their aims are shared by the democratic group, they will not hesitate to make common cause with them.

Labor Unrest
The democratic group is likewise counting on turning the labor unrest to its advantage. If a general strike is proclaimed, which seems quite likely, and another cabinet crisis is the result, the workmen will not object if the radical party gains the upper hand in the government. This party is therefore watching intently every phrase of the labor unrest, as well as the development of the military movement, ready to exploit both whenever the occasion offers itself.

On the other hand, the declaration signed by the leaders of the three political parties which fused to form the "Block of the Left" leaves no doubt that this group contemplates vigorous action, even independently of the army and labor movements.

EVER WATCH A BIG CIRCUS COME IN?

Then Set Your Alarm Clock and See the Ringling Bros. Trains Unload

If you want to get some idea of the immensity of the all new circus which the Ringling Brothers have on tour this season set your alarm clock for an early call on the morning of Friday, September 14, and then go to the railroad yards.

You will see cars, cars, nothing but cars resplendent with red and yellow and gold, each bearing the magic caption, "Ringling Bros. World's Greatest Shows." Here will be a train of solid, vestibuled sleepers; there a string of massive screen windowed coaches of the "boxed" variety wherein travel the elephants, the camels and zebras; and elsewhere you will gaze upon long vistas of stock and flat cars disgorging endless streams of the most all sizes and all breeds, or lined with hundreds of wagons, cages, tableau floats, vans and mammoth equipment trucks, brimming over with the wonders of Spangleland. Everything will be in motion for things never stand still with the big circus. Just as soon as the brakes set to the wheels of the wonder-trains the unloading process begins. Big beautiful horses walk along the sides of the various sections drawing the wagons to the end of the trains much after the fashion of tow horses trailing canal boats. Brawny men guide the tongues of the great vans and as the wagons reach the ground other horses are hooked on to them and they set off toward the circus grounds. Then other and more wagons follow until fully 200 massive vehicles mingle with the caravans of camels, elephants or zebras, with here and there a string of spotted ponies or a small regiment of performing horses, the whole forming a great sea of motion which gradually takes shape and moves across and out of the railway yards.

To the reader who has never experienced the wonderful sight which accompanies the unloading of a great circus it may be supposed that pandemonium reigns. Nothing could be farther from the fact. There is never a shout and seldom so much as an order given. Long practice has taught the men of the circus to work without noise and without commands.

PICNIC PASTRY

The big lunch is far and away the most important part of every successful picnic. So see that the flour, the largest single item that goes to make luncheon goodies, is the kind that will bring best results for your picnic baking. Use only—
